The Goat Star:

The Goat World ,1928 *A Skywatcher's Year* Jeff Kanipe,1999-07-08 Have you ever wondered what that bright point of light twinkling near the horizon is or just when you can expect to see the best shooting stars of the year A Skywatcher's Year has answers to these and other questions about what is visible in the night sky throughout the year Through 52 articles arranged week by week A Skywatcher's Year guides you to celestial events and phenomena that occur or are visible with the naked eye and binoculars for each week of the year It acquaints you not only with up to date astronomical information on stars nebulae meteors the Milky Way and galaxies but also conveys the beauty and wonder of the night sky Covering both the Northern Hemisphere and Southern Hemisphere A Skywatcher's Year helps readers find prominent stars and constellations bright star clusters nebulae and galaxies and explains how and when to observe prominent annual meteor showers **The Classical Weekly** ,1926 **Tales of the Night Sky** Robin Kerod,2020-09-15 With an 18 x 24 landscape poster that charts some of the best known constellations under which dreams are made Tales of the Night Sky blends science philosophy and myth for the casual astronomer **The Classical World** ,1926 *Athena in the Classical World* Susan Deacy,Alexandra Villing,2021-10-11 Among ancient Greek deities none has enjoyed as rich a life as Athena goddess of war wisdom and the arts and she continues to fascinate and challenge today This volume sheds light on the goddess more comprehensively than has previously been attempted It brings together the latest research centring on Greek and Roman religion literature and archaeology yet also encompassing ancient Near Eastern Indo European and modern interpretations Cults and myths are explored as are political social and gendered roles and art historical and etymological developments Recurrent themes are investigated as are the many dividing lines and contradictory aspects which characterise representations of the goddess The volume will enhance our understanding of Athena and will be a source of inspiration for new ideas and interpretations for years to come *The Call of the Stars* John Robert Kippax,1914 **Mesopotamian Planetary Astronomy-Astrology** David Brown,2021-10-25 Pliny wrote of Babylon that here the creator of the science of astronomy was Excavations have shown this statement to be true This book argues that the earliest attempts at the accurate prediction of celestial phenomena are indeed to be found in clay tablets dating to the 8th and 7th centuries BC from both Babylon and from Nineveh The author carefully situates this astronomy within its cultural context treating all available material from the relevant period and also analysing the earlier astrological material and the later well known ephemerides and related texts A wholly new approach to cuneiform astral concerns emerges one in which both celestial divination and the later astronomy are shown to be embedded in a prevailing philosophy dealing with the ideal nature of the early universe and in which the dynamics of the celestial divination industry that surrounded the last Assyrian monarchs account for no less than the first recorded scientific revolution This work closely adheres to the original textual sources and argues for the evolution on the basis of the needs of the ancient scholars and the internal logic of the divinatory and predictive systems employed To this end it offers for the first

time a Mesopotamian contribution to the philosophy and not only the history of science Nature Lover ,1923 The Music of the Spheres Florence Armstrong Grondal,1926 **Self Culture** ,1895 *Knowledge...* Edwin Sharpe Grew,Baden Fletcher Smyth Baden-Powell,Arthur Cowper Ranyard,Wilfred Mark Webb,1909 *The Book of the Stars for Young People* William Tyler Olcott,1923 **Nature Magazine** ,1927 An illustrated monthly with popular articles about nature *The Constellations and Their History* Charles Whyte,1928 **Test. v. 2. Plates** British Museum. Department of Egyptian and Assyrian Antiquities,1912 **Babylonian Boundary-stones and Memorial-tablets in the British Museum** British Museum.
