The History of Love Nicole Krauss, 2025-04-25 ONE OF THE MOST LOVED NOVELS OF THE DECADE A long lost book reappears mysteriously connecting an old man searching for his son and a girl seeking a cure for her widowed mother's loneliness Leo Gursky taps his radiator each evening to let his upstairs neighbor know he's still alive But it wasn't always like this in the Polish village of his youth he fell in love and wrote a book Sixty years later and half a world away fourteen year old Alma who was named after a character in that book undertakes an adventure to find her namesake and save her family With virtuosic skill and soaring imaginative power Nicole Krauss gradually draws these stories together toward a climax of extraordinary depth and beauty

Conduct Books and the History of the Ideal Woman Tabitha Kenlon, 2020-03-31 The longest running war is the battle over how women should behave *Conduct Books and the History of the Ideal Woman* examines six centuries of advice literature analyzing the print origins of gendered expectations that continue to inform our thinking about women's roles and abilities Close readings of numerous conduct manuals from Britain and America written by men and women explain and contextualize the legacy of sexism as represented in prescriptive writing for women from 1372 to the present While existing period specific studies of conduct manuals consider advice literature within the society that wrote and read them *Conduct Books and the History of the Ideal Woman* provides the only analysis of both the volumes themselves and the larger debates taking place within their pages across the centuries Combining textual literary analysis with a social history sensibility while remaining accessible to expert and novice this book will help readers understand the on going debate about the often contradictory guidelines for female behavior

[Textual Silence](#) Jessica Lang, 2017-08-24 There are thousands of books that represent the Holocaust but can and should the act of reading these works convey the events of genocide to those who did not experience it In *Textual Silence* literary scholar Jessica Lang asserts that language itself is a barrier between the author and the reader in Holocaust texts and that this barrier is not a lack of substance but a defining characteristic of the genre Holocaust texts which encompass works as diverse as memoirs novels poems and diaries are traditionally characterized by silences the authors place throughout the text both deliberately and unconsciously While a reader may have the desire and will to comprehend the Holocaust the presence of textual silence is a force that removes the experience of genocide from the reader's analysis and imaginative recourse Lang defines silences as omissions that take many forms including the use of italics and quotation

marks ellipses and blank pages in poetry and the presence of unreliable narrators in fiction While this limits the reader's ability to read in any conventional sense these silences are not flaws They are instead a critical presence that forces readers to acknowledge how words and meaning can diverge in the face of events as unimaginable as those of the Holocaust

A Cultural History of the Irish Novel, 1790-1829 Claire Connolly, 2011-11-17 Claire Connolly offers a cultural history of the Irish novel in the period between the radical decade of the 1790s and the gaining of Catholic Emancipation in 1829 These decades saw the emergence of a group of talented Irish writers who developed and advanced such innovative forms as the national tale and the historical novel fictions that took Ireland as their topic and setting and which often imagined its history via domestic plots that addressed wider issues of dispossession and inheritance Their openness to contemporary politics as well as to recent historiography antiquarian scholarship poetry song plays and memoirs produced a series of notable fictions marked most of all by their ability to fashion from these resources a new vocabulary of cultural identity This book extends and enriches the current understanding of Irish Romanticism blending sympathetic textual analysis of the fiction with careful historical contextualization

Holocaust Impiety in Jewish American Literature Joost Krijnen, 2016-05-02 The Holocaust is often said to be unrepresentable Yet since the 1990s a new generation of Jewish American writers have been returning to this history again and again insisting on engaging with it in highly playful comic and impious ways Focusing on the fiction of Michael Chabon Jonathan Safran Foer Nicole Krauss and Nathan Englander this book suggests that this literature cannot

simply be dismissed as insensitive or improper It argues that these Jewish American authors engage with the Holocaust in ways that renew and ensure its significance for contemporary generations These ways moreover are intricately connected to efforts of finding new means of expressing Jewish American identity and of moving beyond the increasingly apparent problems of postmodernism The History of Fiction John Colin Dunlop,1842 *The History of Fiction* John T.
