Guerrilla Networks Michael Goddard,2025-10-01 The radical youth movements of the 1960s and 70s gave rise to both
militant political groups ranging from urban guerrilla groups to autonomist counterculture as well as radical media including
radio music film video and television This book is concerned with both of those tendencies considered as bifurcations of
radical media ecologies in the 1970s While some of the forms of media creativity and invention mapped here such as militant
film and video pirate radio and guerrilla television fit within conventional definitions of media others such as urban guerrilla

means of expression in order to produce transformative effects and they were all in different ways responding to ideas and
practices of guerrilla struggle and specifically of guerrilla media This book examines these radical media ecologies as
guerrilla networks emphasising the proximity and inseparability of radical media and political practices Radio's Master

the leftist and anarchist movements of the 80s they built DIY networks that give us a glimpse into what internet culture could
have been if it were in the hands of squatters hackers punks artists and activists In the Dutch scene the early internet was
intimately tied to the aesthetics and politics of squatting Untethered from profit motives these artists and activists aimed to
create a decentralized tool that would democratize culture and promote open and free exchange of information
