extracurricular activities marginalize Black gay male students at BHS The theoretical framework of the study builds upon the concept of marginalization introduced by Cathy Cohen s provocative book *Boundaries of Blackness* 1999 which examines institutional forms of marginalization in AIDS organizations and the Black press The impetus of this dissertation study was research on race and sex segregation in extracurricular activities conducted during the 1996 1997 academic year under the auspices of the Diversity Project a school university collaborative action research project at BHS Subsequent ethnographic research was conducted on intersections of race gender and sexuality in two extracurricular activities Project 10 the social support group for queer students and the Afro Haitian Dance Program AHDP which is part of one of the nation s only African American Studies Department housed in a public high school Four Black gay male students serve as focal students in the data analysis Their experiences highlight how cross cutting issues of race gender and sexuality marginalize Black gay male students within indigenous extracurricular activities that were established to serve the needs of queer students and Black students respectively Furthermore their experiences reflect how responses to marginalization attempts to make space in the institutional structure of BHS through subversive performances of identity The notion of making space reveals the sutured dynamics of multiple categories of identity and the dialectical relationship between the performance of identity and the structure of schools In conclusion queering the marginalization of Black male students helps us rethink the troubles facing Black males in urban schools and challenges us to develop intervention strategies that improve the educational outcomes of Black male students while simultaneously working to dismantle sexism and heterosexism
