Fairness in Educational Assessment and Measurement Neil J. Dorans,Linda L. Cook,2016-09-19 The importance of fairness validity and accessibility in assessment is greater than ever as testing expands to include more diverse populations more complex purposes and more sophisticated technologies This book offers a detailed account of fairness in assessment and illustrates the interplay between assessment and broader changes in education In 16 chapters written by leading experts this volume explores the philosophical technical

and practical questions surrounding fair measurement Fairness in Educational Assessment and Measurement addresses issues pertaining to the construction administration and scoring of tests the comparison of performance across test takers grade levels and tests and the uses of educational test scores Perfect for researchers and professionals in test development design and administration Fairness in Educational Assessment and Measurement presents a diverse array of perspectives on this topic of enduring interest The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Politics of African-American Education Kenneth J. Meier, Amanda Rutherford, 2016-08-22 Based on the 1,800 largest school districts in the United States over a decade The Politics of African American Education documents the status of African American education and the major role that partisanship plays The book brings together the most comprehensive database on minority education to date that centers around three arguments First partisanship permeates African American education it affects who is elected to the school board the racial composition of school administrators and teachers and the access of African American students to quality education Second African American representation matters The effectiveness of African American representation however is enhanced in Democratic districts while representation in Republican districts has little influence Third political structures matter but they are not determinative Two different structures election rules and the independent school district create the rules of the game in US education politics and policy but do not limit others from using those rules to change the outcome
