Teenage Pregnancy Anne L Dean, 2013-05-13 Unwed teenage pregnancy is a national problem and a puzzle for clinicians and social psychologists For how are we to understand a pattern of behavior that is strongly motivated and yet likely to end in unfortunate outcomes Moreover why does the pattern of unwed teenage pregnancy repeat in successive generations in some families despite education and previous experience whereas in other families the pattern is broken Reporting on intensive social and psychological research in a rural African American community in Louisiana Anne Dean offers a compelling view of this phenomenon that integrates historical and economic analysis with a sensitive psychological inquiry into the minds of mothers and daughters and the patterns of communication between them *Teenage Pregnancy The Interaction of Psyche and Culture* transcends earlier investigations by going beyond conventional research strategies to test psychodynamic theories about the formation of internal worlds Drawing on the work of Erik Erikson and Hans Loewald Dean not only finds empirical justification for psychodynamic theories of psychic structure but also extends the scope and methodology of attachment research in an exciting new direction Specifically her analysis reveals how different kinds of attachment relationships between mothers and daughters manifest themselves in adolescence as internal working models that become the templates for interpreting and acting upon contradictory economic social and familial expectations In demonstrating how social factors and cultural schemas interact with psychodynamic motives and structures *Teenage Pregnancy* has widespread applicability to social science research in general And it offers psychodynamically oriented clinicians working with adolescents the opportunity to become better acquainted with the ways in which mother daughter relationships gain expression in the identity choices of teenage girls

violence has repeatedly been identified as a significant causal agent in relation to the prevalence of crime and violence in society Critics have accused the medium of presenting excessive quantities of violence to the point where it is virtually impossible for viewers to avoid it This book presents the findings of the largest British study of violence on TV ever undertaken funded by the broadcasting industry The study was carried out at the same time as similar industry sponsored research was being conducted in the United States and one chapter compares findings from Britain and the U S A The book concludes that it is misleading to accuse all broadcasters of presenting excessive quantities of violence in their schedules This does not deny that problematic portrayals were found But the most gory horrific and graphic scenes of violence were generally contained within broadcasts available on a subscription basis or in programs shown at times when few children were expected to be watching This factual analysis proves that broadcasters were meeting their obligations under their national regulatory codes of practice

Women Escaping Violence Elaine J.

Lawless,2013-03-07 The statistics are alarming Some say that once every nine minutes a woman in the United States is beaten by her spouse or partner Others claim that once every four minutes a woman in the world is beaten by her spouse or partner More women go to emergency rooms in the United States for injuries sustained at the hands of their spouses and partners than for all other injuries combined Shelters for battered women are filled beyond capacity every single day of the year Despite the overwhelming evidence that violence in our homes is a daily reality most of us are not willing to acknowledge this private violence or talk about it openly Women Escaping Violence brings women s stories to the attention of the academy as well as the reading public While we may be unwilling or unable to talk about the issue of battered women many of us are ready to read what women have to say about their endangered lives Considerable scholarship is emerging in the area of domestic violence including many self help books about how to identify and escape abuse Women Escaping Violence offers the unique view of battered women s stories told in their own words as well as a feminist analysis of how these women use the power of narrative to transform their sense of self and regain a place within the larger society Lawless shares with the reader the heart wrenching experiences of battered women who have escaped violence by fleeing to shelters with little more than a few items hastily shoved into a plastic bag and often with small children in tow The book includes women s stories as they are told and retold within the shelter in the presence of other battered women and of caregivers It analyzes the uses made of these narratives by those seeking to counsel battered women as well as by the women themselves
