 Henzell-Thomas,2022-01-01 The Reform in Higher Education in Muslim Societies is in sum a paradigm shift in perspective
 driven by important considerations including the aims of education itself It may require reforming existing disciplines
 inventing new ones as well as working in conjunction with current knowledge s and discourses by taking effective account of
 the ethical spiritual norms of Muslim society the guiding principles that it operates under which in turn mark the underlying
 basis of its makeup and spiritual identity Rather than creating divisions reform of Higher Education in Muslim Societies
 recognizes the plurality and diversity of the modern networked world and seeks to replace sterile and uniform approaches to
 knowledge with a broader and more creative understanding of reality as lived on different soils and different cultures
