worry it's here at your fingertips always Most hypnotists like me have extensive libraries on hypnosis And trying to find an article or phrase is a daunting prospect when you may have to sift through 30 or 40 books Now you won't have to you can simply use Hypnosis the A to Z Included are every useful word and phrases you need in the world of the professional hypnotist Starting out is exciting and fun imagine the difference you project to your potential subjects when you use correct terminology every step of the way Not only do you have full descriptions of the everyday hypnotist's words and phrases You also benefit from a huge array of examples and practical uses too Using this fantastic book couldn't be easier Following an alphabetical sequence so flick through find the word you'd like to reference and presto Everything from the AARON depth scale right down to the popular wand waving ZAP Use it as part of your learning reading from cover to cover Use it to remind yourself of those elusive new terms Find any phrase or word easily and quickly In fact use it how you will but once you have it you WILL use it Below is a small sample of just one section of this fantastic book for you to get a feel of just what is in it and how beneficial it is EGO Me I the core about which all psycho activity revolves ELMAN Dave Elman lived from 1900 to 1967 Multi talented musician radio host and hypnotist Created the highly effective Elman induction which is considered a guaranteed hypnotic induction due to the choices given during the induction ELMAN INDUCTION A very effective rapid hypnosis induction created by Dave Elman It is considered the best guaranteed induction by many hypnotists since it is completely permissive and relies upon the subject to pace themselves into trance with the help of the hypnotist Created by Dave Elman the renowned hypnotist author and radio show host Below is the Elman induction word for word However it was originally used in 1963 that's fifty years ago it is still generally accepted that it is a basis for a good induction but needs updating due to the wording being outdated but also there is quite a lot of questioning of the subject and this may have a tendency to unravel the trance slightly Especially if there is any misunderstanding So first will be the induction in pure form and next my own modified version The Elman induction Will you just take a good long deep breath and close your eyes now relax the muscles around your eyes to the point where those eye muscles won't work and when you're sure they won't work test them and make sure they won't work test them get complete relaxation in those muscles around the eyes now let that feeling of relaxation go right down to your toes in a moment we're going to do this again and when we do it a second time you're going to be able to relax ten times as much as you're relaxed already now open your eyes close your eyes completely relax let yourself be covered with a blanket of relaxation now the third time we do it you'll be able to double the relaxation which you have open your eyes now relax I'm going to lift your hand and drop it and if you've followed instructions up to this point that hand will be just as limp as a dishrag and will just plop into your lap let me lift it don't you lift it let it be heavy that's good but let's open and close the eyes again and double that relaxation and send it right down to your toes let that hand be as heavy as lead you'll feel it when you've got the relaxation now you've got it you could feel that couldn't you that's complete physical relaxation but I want to show you how you can get mental relaxation as well as physical so I'm going to ask you to

start counting when I tell you to from a hundred backwards each time you say a number double your relaxation and by the time you get down to ninety eight you ll be so relaxed there won t be any more numbers start with the idea of making that happen and watch it happen count out loud please 100 double your relaxation and watch the numbers start disappearing 99 watch the numbers start disappearing 98 now they ll be gone make it happen you ve got to do it i can t do it make them disappear dispel them make them vanish At this point the subject participation gets quite intense Below is a modified Elman induction complete with integrated deepener s Take a nice deep breath and hold it Hope you enjoyed this sample of part of the E s HAPPY READING And of course HAPPY ZAPPING
