eliciting locally informed context sensitive criteria for writing assessments The impact of DCM on assessment practice is beginning to emerge as more and more writing departments and programs adopt adapt or experiment with DCM approaches For the authors of Organic Writing Assessment the DCM experience provided not only an authentic assessment of their own programs but a nuanced language through which they can converse in the always vexing potentially divisive realm of assessment theory and practice Of equal interest are the adaptations these writers invented for Broad s original process to make DCM even more responsive to local needs and exigencies Organic Writing Assessment represents an important step in the evolution of writing assessment in higher education This volume documents the second generation of an assessment model that is regarded as scrupulously consistent with current theory it shows DCM s flexibility and presents an informed discussion of its limits and its potentials

The Essays Only You Can Write Irene Papoulis, 2023-10-17 The Essays Only You Can Write offers a perspective on essay writing that spotlights a writer's uniqueness. Resisting the perception that personal and academic writing are at odds with one another, it treats the impulse to write personally as potential fuel for a variety of writing purposes. The book encourages students to think like academics pursuing their enthusiasms, trusting their ideas and questioning their conclusions by leading them through three main writing assignments: a personal essay, an essay based on texts, and a research essay. Each chapter offers exercises and strategies for various stages in the pre-writing, drafting, and revision processes. Freewriting, extensive attention to planning, devising a structure and order of ideas that both promote and reflect engagement with a topic, developing rhetorical awareness and knowledge of conventions, and an advocacy for expressive, socially responsible writing are all central elements of the text's instruction. By acknowledging the emotions inherent in the writing process, many of which can muddle thinking, I don't want anyone to see this, what if I make mistakes, what if the writing isn't good, I don't want to be critiqued, etc., Papoulis helps beginning college writers to navigate the psychological as well as the technical roadblocks that can get in the way of their best personal and academic writing.
