Wine Report New Zealand:

The Australian & New Zealand Wine Industry Journal ,2001 **New Zealand Farmer Weekly** ,1917 **Social, Cultural and Economic Impacts of Wine in New Zealand.** Peter J. Howland,2014-04-16 New Zealand's wine came to the world's attention in the late 1980's with its production of some of the best quality sauvignon blancs. Since then the industry has grown significantly and has increasingly gained an international reputation as a producer of quality boutique wines. This volume provides an innovative multi-disciplinary and critical review of wine production and consumption focusing specifically on the fascinating wine industry of New Zealand. It considers the history, production, aesthetics, consumption, and role of place identity from multi-disciplinary perspectives to offer insight into the impacts of wine production and consumption. By linking the study of wine to broadly constructed social, cultural, historical, and transnational processes, the book contributes to contemporary debates on the life of commodities, social class, and place and people. Throughout, comparisons are made to other internationally recognized wine regions such as Bordeaux and Burgundy. This title furthers the understanding of the social, cultural context of wine production and consumption in this region and will be valuable reading to students, researchers, and academics interested in gastronomy, wine studies, tourism, and hospitality.

Now the country faces new challenges. In a world where value is increasingly rooted in capital and technology-intensive industries, can countries dependent on agriculture really sustain its high living standards by growing crops? This book takes readers out on to farms, orchards, and vineyards and inside the offices and factories of processors and exporters to show how innovative New Zealanders are answering these challenges. From Icebreaker clothing to Mr Apple fruit exports, innovative companies are creating high value, unique products rooted in particular places and making pathways to the niche markets where they can realize that value.
