Multiaccess, Mobility and Teletraffic in Wireless Communications: Volume 4 Ezio Biglieri, Luigi Fratta, Bijan Jabbari, 2013-03-09 The unrelenting growth of wireless communications continues to raise new research and development problems that require unprecedented interactions among communication engineers In particular specialists in transmission and specialists in networks must often cross each other's boundaries This is especially true for CDMA an access technique that is being widely accepted as a system solution for next generation mobile cellular systems but it extends to other system aspects as well Major challenges lie ahead from the design of physical and radio access to network architecture resource management mobility management and capacity and performance aspects Several of these aspects are addressed in this volume the fourth in the edited series on Multiaccess Mobility and Teletraffic for Wireless Communications It contains papers selected from MMT 99 the fifth Workshop held on these topics in October 1999 in Venezia Italy The focus of this workshop series is on identifying presenting and discussing the theoretical and implementation issues critical to the design of wireless communication networks More specifically these issues are examined from the viewpoint of the impact each one of them can have on the others Specific emphasis is given to the evolutionary trends of universal wireless access and software radio Performance improvements achieved by spectrally efficient codes and smart antennas in experimental GSM testbeds are presented Several contributions address critical issues regarding multimedia services for Third Generation Mobile Radio Networks ranging from high rate data transmission with CDMA technology to resource allocation for integrated Voice WWW traffic

Fixed Broadband Wireless Access Networks and Services Oliver C. Ibe, 2002-05-23 The author takes a detailed look at the technologies and techniques needed to operate fixed broadband wireless access networks With this comprehensive guide readers discover the technologies required for FBW and learn how to plan deploy and manage an access network
