Strange Highways English Edition:

Strange Highways: Reading Science Fantasy, 1950-1967 John Boston, Damien Broderick, 2013-01-15 Science Fantasy blends science fiction AND fantasy so it tends to be bolder and more highly colored than pure science fiction In the middle of the last century the British magazine SCIENCE FANTASY created its own distinctive strains of fantasy narrative most famously by such writers as Brian W Aldiss J G Ballard John Brunner Michael Moorcock and Thomas Burnett Swann among others This book looks closely at the whole trajectory of that lost magazine from its birth in 1950 through 1967 when it was briefly called SF Impulse John Boston provides a brilliantly insightful and often every funny account of the rise evolution and final fall of SCIENCE FANTASY its writers and its quirky editors Boston is joined by writer and critic Damien Broderick adding his own waspish and nostalgic comments This volume the first of three dealing with the history and development of the major British SF magazines is a compelling night journey into the past where the future took a turn down paths not often explored It s a trip not to be missed
