Unit 4222-324 Support Individuals with Specific Communication Needs

❖ Outcome 1 – Understand Specific Communication Needs and Factors Affecting them

1. It is important to meet each individual's specific communication needs to ensure that they receive all the help and support needed to express themselves and their own needs in the way that the individual wants to. There are a variety of different ways in which this can be achieved a individual may choose to use sign language or writing what they would like on to paper. Whichever way a individual chooses to communicate it is important to respect this as a staff member as it is the individual's human right to do this. If we were to stop them from expressing their own rights and opinions we would then be depriving the individual of their human right.
1. Within my job role at Cameroon residential home I ensure that I work with each service user in a person-centred manner to ensure that they all receive the support that they require. On a daily basis I support and promote each individual to live as independently as possible by ensuring that I give them the opportunity to express themselves and respect both their rights and decisions. As I know each service user very well I am able to identify the best way to communicate with them to best meet their needs some ways just by promoting to gain an answer where speech is limited and reading their body language when showing me something the individual requires as no verbal communication is available. If I did not ensure that I do this on a day to day basis then the service user would not be able to express their needs or how they are feeling resulting in them being neglected.
1. There are many features of the environment that can hinder an individual's communication as even too much background noise can become distracting. If everyone was to talk at the same time to the individual this can be overwhelming and they will not know where to direct their attention. If staff were to cover their mouths, turn their back or speak to fast or slow and use slang words these can also hinder communication with individuals.

Features of the environment that can enable help communication with individual's are to ensure that there is good lighting, talking in a slow
