Vel Dhiv Juillet Histoire:

La Rafle du Vél d'Hiv Laurent Joly, 2022-05-25 La rafle dite du Vel d'Hiv est l'un des événements les plus tragiques survenus en France sous l'Occupation. En moins de deux jours, les 16 et 17 juillet 1942, 12 884 femmes, hommes et enfants rapartis entre Drancy puis de 4 900 et le Vel d'Hiv 8 000 ont été arrêtés par la police parisienne à la suite d'un arrangement criminel entre les autorités allemandes et le gouvernement de Vichy. Seule une petite centaine de ces victimes survivra à l'enfer des camps nazis. Cette opération emblématique et monstrueuse demeure pourtant relativement méconnue. L'arrière-plan administratif et la logistique policière de la grande rafle n'ont été que peu étudiés et jamais dans le détail. Les légendes, tel le nom de code opération Vent Printanier et inexactitudes sur le nombre de personnes arrêtées ou celui des effectifs policiers sont rapportées de livre en livre. Et l'on ignore que jamais Vichy ne livra plus de juifs français à l'occupant que le 16 juillet 1942. D'où l'ambition dans cet ouvrage d'une histoire à la fois incarnée et globale de la rafle du Vel d'Hiv. Une histoire incarnée autrement dit au plus près des individus persécutés comme persécuteurs de leur état d'esprit, de leur vécu quotidien, de leurs marges de décision. Mais aussi une histoire globale soucieuse de restituer la multiplicité des points de vue des destinés et attentive au contexte de la politique nazie et de la collaboration d'état. Une recherche largement inédite, la plus riche et variée possible, de la consultation de centaines de témoignages, une exploitation inédite des fichiers juifs de la Préfecture de police de Paris. Mais la partie la plus importante de l'enquête a consisté à rechercher des paroles de policiers : 4 000 dossiers de purification des agents de la Préfecture de police ont été dépouillés. Parmi eux, plus de 150 abordent la grande rafle et ses suites. Outre les justifications de policiers, ces dossiers contiennent des paroles de victimes, des témoignages souvent accablants de concierges et surtout des copies de rapports d'arrestation, totalement inédits. Fruit de plusieurs années de recherche menées par l'auteur, les archives de la police et de l'administration auront minutieusement fouillées. La Rafle du Vel d'Hiv apporte une lumière nouvelle sur l'un des événements les plus terribles et les plus difficiles à appréhender de notre histoire contemporaine.

Vichy France and the Jews Michael R Marrus, Robert O Paxton, 2023-05-25 An updated edition with decades worth of new archival material. It remains the classic text on the Holocaust in France. Holocaust and Genocide Studies. When Vichy France and the Jews was first published in France in 1981, the reaction was explosive. Before the appearance of this groundbreaking book, the question of the Vichy regime's cooperation with the Third Reich had been suppressed. Michael R Marrus and Robert O Paxton were the first to access closed archives that revealed the extent of Vichy's complicity in the Nazi effort to eliminate the Jews. Since the book's original publication, additional archives have been opened and the role of the French state in the deportation of Jews to the Nazi death factories is now openly acknowledged. This new edition integrates over thirty years of subsequent scholarship and incorporates research on French public opinion and the diversity of responses by French civilians to the campaign of persecution they witnessed around them. This classic account remains central to the historiography of France and the Holocaust and in its revised edition is more important than ever for understanding the Vichy government's role in the

Rhine Allan Mitchell has uncovered the inner workings of the German military regime from the Wehrmacht's triumphal entry into Paris in June 1940 to its ignominious withdrawal in August 1944. Although mindful of the French experience and the fundamental issue of collaboration, the author concentrates on the complex problems of occupying a foreign territory after a surprisingly swift conquest. By exploring in detail such topics as the regulation of public comportment, economic policy, forced labor, culture and propaganda, police activity, persecution and deportation of Jews, assassinations, executions and torture, this study supersedes earlier attempts to investigate the German domination and exploitation of wartime France. In doing so, these findings provide an invaluable complement to the work of scholars who have viewed those dark years exclusively or mainly from the French perspective.
