Boss, 2019-01-28 At a time when mass shootings in schools and other public spaces have become commonplace it might seem surprising that American college campuses are not magnets for murderers but sanctuaries from them Because of remarkably effective gun safe policies deaths by firearms on college campuses are 1 000

times less frequent than in the U S public at large Drawing on crime data submitted in compliance with the Clery Act and public reports of those crimes this study inventories every documented homicide at a U S college or university between 2001 and 2016 making a compelling argument for using gun safe campuses as guides for broader public safety Annual Report of the Law Enforcement Assistance Administration United States. Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance California Mission Landscapes Elizabeth Kryder-Reid, 2016-11-30 Nothing defines California and our nation's heritage as significantly or emotionally says the California Mission Foundation as do the twenty one missions that were founded along the coast from San Diego to Sonoma Indeed the missions collectively represent the state's most iconic tourist destinations and are touchstones for interpreting its history Elementary school students today still make model missions evoking the romanticized versions of the 1930s Does it occur to them or to the tourists that the missions have a dark history California Mission Landscapes is an unprecedented and fascinating history of California mission landscapes from colonial outposts to their reinvention as heritage sites through the late nineteenth and twentieth centuries Illuminating the deeply political nature of this transformation Elizabeth Kryder Reid argues that the designed landscapes have long recast the missions from sites of colonial oppression to aestheticized and nostalgia drenched monasteries She investigates how such landscapes have been appropriated in social and political power struggles particularly in the perpetuation of social inequalities across boundaries of gender race class ethnicity and religion California Mission Landscapes demonstrates how the gardens planted in mission courtyards over the past 150 years are not merely anachronistic but have become potent ideological spaces The transformation of these sites of conquest into physical and metaphoric gardens has reinforced the marginalization of indigenous agency and diminished the contemporary consequences of colonialism And yet importantly this book also points to the potential to create very different visitor experiences than these landscapes currently do Despite the wealth of scholarship on California history until now no book has explored the mission landscapes as an avenue into understanding the politics of the past tracing the continuum between the Spanish colonial period emerging American nationalism and the contemporary heritage industry Southwest Builder and Contractor ,1929 **Transit Maps of the World** Mark Ovenden, 2015-11-03 A completely updated and expanded edition of the cult bestseller featuring subway light rail and streetcar maps from New York to Nizhny Novgorod Transit Maps of the World is the first and only comprehensive collection of historical and current maps of every rapid transit system on earth In glorious colorful graphics Mark Ovenden traces the cartographic history of mass transit including rare and historic maps diagrams and photographs some available for the first time since their original publication Now expanded with thirty six more pages 250 city maps revised from previous editions and listings given from almost a thousand systems in total this is the graphic designer's new bible the transport enthusiast's dream collection and a coffee table essential for everyone who's ever traveled in a city Directory California.
