Conversing by Signs Robert Blair St. George, 2000-11-09 The people of colonial New England lived in a densely metaphoric landscape a world where familiars invaded bodies without warning witches passed with ease through locked doors and houses blew down in gusts of angry providential wind Meaning Robert St George argues was layered often indirect and inextricably intertwined with memory apprehension and imagination By exploring the linkages between such cultural expressions as seventeenth century farmsteads witchcraft narratives eighteenth century crowd violence and popular portraits of New England Federalists St George demonstrates that in early New England things mattered as much as words in the shaping of metaphor These forms of cultural representation architecture and gravestones metaphysical poetry and sermons popular religion and labor politics are connected through what St George calls a poetics of implication Words objects and actions referentially interdependent demonstrate the continued resilience and power of seventeenth century popular culture throughout the eighteenth century Illuminating their interconnectedness St George calls into question the actual impact of the so called Enlightenment suggesting just how long a shadow the colonial climate of fear

and inner instability cast over the warm glow of the early national period

Twentieth-Century Building Materials

Thomas C. Jester, 2014-08-01 Over the concluding decades of the twentieth century the historic preservation community increasingly turned its attention to modern buildings including bungalows from the 1930s gas stations and diners from the 1940s and office buildings and architectural homes from the 1950s Conservation efforts however were often hampered by a lack of technical information about the products used in these structures and to fill this gap *Twentieth Century Building Materials* was developed by the U S Department of the Interior s National Park Service and first published in 1995 Now this invaluable guide is being reissued with a new preface by the book s original editor With more than 250 illustrations including a full color photographic essay the volume remains an indispensable reference on the history and conservation of modern building materials Thirty seven essays written by leading experts offer insights into the history manufacturing processes and uses of a wide range of materials including glass block aluminum plywood linoleum and gypsum board Readers will also learn about how these materials perform over time and discover valuable conservation and repair techniques Bibliographies and sources for further research complete the volume The book is intended for a wide range of conservation professionals including architects engineers conservators and material scientists engaged in the conservation of modern buildings as well as scholars in related disciplines
