Exploits and Opportunities of an Airman David Shifflett, 2024-03-18 Exploits and Opportunities of an Airman is about the adventures through travel throughout Central America and the northern and southern parts of Europe exploiting the current and historical It is also about how having a family changes your outlook and values that you place on yourself those around you and your career By bettering yourself with knowledge and credentials you open doors for chances to prove something not only to others but also to oneself The opportunities of this book are explained I was fortunate that those who

went before me were willing and able to pass on their knowledge so I could build upon that knowledge and experience While I was TDY in Panama we had an old Black man who was our line chief Some people would look at that as a derogatory statement Yes he was a Black man but he was more so much more He was a wise and knowledgeable man He knew his job he knew the plane and he knew how to handle young men He is one of the men to whom this book is dedicated It was about working together to ensure that we had planes in the air to help those in need It was Work hard and play hard I carried those thoughts with me my whole career While in Panama Canal I had the opportunities to experience the wonder of the canal as well as the devastation to those individuals who helped build it I played on a golf course that was made through a dense forest If your ball went into the woods you did not go in to get it I learned that first thing in the morning you did not just go into the wheel well of a plane it could have a nasty large snake or lizard that crawled up in there during the night All in all Panama was a fascinating and vibrant country Working on airplanes and then watching them take off after you had repaired it gives you such a feeling of accomplishment that is rarely felt When you add the knowledge that the plane is heading to help someone there is no greater feeling I have been an aviation enthusiast since I was ten and my neighbor would take me to the Frederick airport in western Maryland Today it is the AOPA Airmen Owners and Pilots Association headquarters Being in the Air Force has afforded me the opportunity to play with airplanes and enjoy my other passion for travel Through my travels I had looked inside of live volcanoes that erupted nine months later I was able to see the villas in Sicily that were used in the Godfather movies On the other hand I was in Morocco six months after we attacked Libya the first time and I traveled all the way down to the foothills of the Atlas Mountains
