decisions In this story the concept of parallel worlds is looked at in a more drastic real life type of way You re pretty much faced with the big question of what would I do if I discovered a parallel world A million things probably come to mind along with the big question of how to get back home That s the story in the nutshell and you can go many ways and even end up in some places where you would like to hang out a bit more You can go that route but you may find that it s not at all that easy since your very presence has moved entire worlds Your presence may have altered a bit more than you may have imagined but leave that to book II which is in reality your goal If you survive and reach book II then you have successfully reconstructed something compatible to the original story You may want to get there another way though which is not at all bad and you may even be shocked to find out that there was a much better way to get to the end **Security Awareness**
