

Step 7

Mascara

Always wear mascara because even if you have dark, luscious eyes, thickening mascara gives natural lashes a lifted look and a curl. If you have a sparse full set, the mascara will add and will avoid looking like you're wearing too much mascara. There's nothing too good about it if you want a little extra look at it, your mascara needs to be there.

When applying mascara, hold the brush over your eye and then brush from the base of the lashes to the tips. Roll the wand to get it against the lashes and push down. Repeat apply over to both eyes.

If you choose to curl the lashes, it's not before applying mascara. Curling before, after applying mascara can break the lashes.

The third mascara makes the most impact. There's more to a better look.

Step 8

Blush

Always add a natural shade of blush to the apples of cheeks. Blend up toward the hairline, down toward the under-eye area.

For long-lasting results, there's a way of applying blush that's best.

For an extra glow, first a shimmer powder is applied to the cheeks with a fine brush, then an eye shadow brush is applied with your fingers.

For a glow off your powder blush, use your finger to buff the blush into the skin. If it seems to light up, use the light finger to buff the blush into the skin and push down.

The sugar or cream blush is a good option for the skin.

To add a warm tone to skin, use a brush to sweep where the sun normally hits the face—cheeks, forehead, nose, and chin.

Step 9

Lipstick

Start with clean, smooth lips.

Several lipstick shades and about four can be applied. Apply from the inner corner of the eye, moving down to the bottom of the eye, which requires a lot of application.

For a natural look, use a brush to apply a light shade of lipstick. The more the brush is used, the more the lipstick will be applied.

For a natural look, use a brush to apply a light shade of lipstick. The more the brush is used, the more the lipstick will be applied.

Step 10

Lip Liner

To achieve natural-looking definition and to keep your lips looking like yours, a lip liner is applied to the lips. There's no need to define and blend the lipstick.

To achieve natural-looking definition, use a brush to apply a light shade of lipstick. The more the brush is used, the more the lipstick will be applied.
