The Solution Revolution William D. Eggers, Paul Macmillan, 2013-09-17 Government Alone Can't Solve Society's Biggest Problems World hunger Climate change Crumbling infrastructure It's clear that in today's era of fiscal constraints and political gridlock we can no longer turn to government alone to tackle these and other towering social problems What's required is a new more collaborative and productive economic system The Solution Revolution brings hope revealing just such a burgeoning new economy where players from across the spectrum of business government philanthropy and social enterprise converge to solve big problems and create public value By erasing public private sector boundaries the solution economy is unlocking trillions of dollars in social benefit and commercial value Where tough societal problems persist new problem solvers are crowdfunding ridesharing app developing or impact investing to design innovative new solutions for seemingly intractable problems Providing low cost health care fighting poverty creating renewable energy and preventing obesity are just a few of the tough challenges that also represent tremendous opportunities for those at the vanguard of this movement They create markets for social good and trade solutions instead of dollars to fill the gap between what government can provide and what citizens need So what drives the solution economy Who are these new players and how are their roles changing How can we grow the movement And how can we participate Deloitte's William D Eggers and Paul Macmillan answer these questions and more and they introduce us to the people and organizations driving the revolution from edgy social enterprises growing at a clip of 15 percent a year to megafoundations to Fortune 500 companies delivering social good on the path to profit Recyclebank RelayRides and LivingGoods are just a few of the innovative organizations you'll read about in this book Government cannot handle alone the huge challenges facing our global society and it shouldn't We need a different economic paradigm that can flexibly draw on resources combine efforts and create value while improving the lives of citizens The Solution Revolution shows the way

Eclipse of Man Charles T. Rubin, 2014-09-02 Tomorrow has never looked better Breakthroughs in fields like genetic engineering and nanotechnology promise to give us unprecedented power to redesign our bodies and our world Futurists and activists tell us that we are drawing ever closer to a day when we will be as smart as computers will be able to link our minds telepathically and will live for centuries or maybe forever The perfection of a post human future awaits us Or so the story goes In reality the rush toward a post human destiny amounts to an ideology of human extinction an ideology that sees little of value in humanity except the raw material for producing whatever might come next In Eclipse of Man Charles T Rubin traces the intellectual origins of the movement to perfect and replace the human race He shows how today's advocates of radical enhancement are like their forebears deeply dissatisfied with given human nature and fixated on grand visions of a future shaped by technological progress Moreover Rubin argues that this myopic vision of the future is not confined to charlatans and cheerleaders promoting this or that technology it also runs through much of modern science and contemporary
