The Beijing Duck:

The Beijing Duck Thomas deKooning, 2014-11-06 Ramone Ramone wasn't having a good day but then that was nothing new. Pouring himself a drink and lighting another cigarette he takes a moment to review the case. A half-baked artist has an apartment full of slashed paintings another suit took a wrong turn out of a high window and his favorite pawn shop isn't as safe as it used to be. To make things worse his best hope to unravel things is a space cadet hippy that never left the seventies and a dead cat with a diamond collar. With one foot on the pavement and the other in a glass of whiskey Ramone is left to tie it all together. At least he has his girlfriend Li and Jerome the best partner the sixth grade ever produced. Maybe the life of a private eye isn't so bad after all but what does any of this have to do with a duck? *The China Guidebook* Fredric M. Kaplan, 1987

Feeding the Dragon Mary Kate Tate, Nate Tate, 2021-10-26 This beautifully illustrated cookbook and travelogue features 100 authentic recipes gathered from Shanghai to Xinjiang and beyond. Highlighting nine unique regions, this volume features Buddhist vegetarian dishes enjoyed on the snowcapped mountains of Tibet, lamb kebabs served on the scorching desert of Xinjiang Province, and much more presented alongside personal stories and photographs. , 1980 *Foods That Changed History* Christopher Cumo, 2015-06-30 Serving students and general readers alike, this encyclopedia addresses the myriad and profound ways foods have shaped the world we inhabit from prehistory to the present. Written with the needs of students in mind, *Foods That Changed History: How Foods Shaped Civilization from the Ancient World to the Present* presents nearly 100 entries on foods that have shaped history, fascinating topics that are rarely addressed in detail in traditional history texts. In learning about foods and their importance, readers will gain valuable insight into other areas such as religious movements, literature, economics, technology, and the human condition itself. Readers will learn how the potato, for example, changed lives in drastic ways in northern Europe, particularly Ireland, and how the potato famine led to the foundation of the science of plant pathology, which now affects how scientists and governments consider the dangers of genetic uniformity. The entries document how the consumption of tea and spices fostered global exploration and how citrus fruits led to the prevention of scurvy. This book helps students acquire fundamental information about the role of foods in shaping world history and it promotes critical thinking about that topic. *Beijing* William Lindesay, 1997 The capital of China for most of the past seven centuries, Beijing lies at the heart of a nation of more than a billion people.
