PULL TYPE SWATHER

—Radically NEW in design

Really new — not a newly-built old model

MODEL 10
12, 15, 18 and 20 foot sizes

Sturdy Construction . . . Smooth Operation

The "Versatile" Model 10 Pull Type Swather has been developed after extensive testing and is therefore a Field Proven Machine providing maximum efficiency in the most severe operating conditions. Note the heavy rigid frame design, constructed of 6 inch tubing and reinforced with 6 inch formed channel that takes all the twist and strain, adding many extra years of trouble free operation. No more sagging or twisting of table. Stubble is cut even and at right height forming a proper support for the even inter-laced swath, so necessary for proper drying.

The exclusive feature of table floating separately and table angle allows the operator to really shave the ground, so necessary when cutting lodged grain. Reduced side draft and better support of table result from mounting the wheel at the rear of the swather instead of the end. The swath lays clear of all wheel treads on succeeding rounds.

Separate hydraulics on table and reels operated by P.T.O. fingertip controls. No more need for cumbersome levers and cranks or running into swath when turning at corners.

Quick fold for transport is another exclusive feature. Just pull one pin and fold. Your tractor and swather are then only 12 feet wide on traction.
