including the practice in criminal proceedings generally. By W. N. Welsby John Frederick ARCHBOLD,1862 **Writing the Ancestral River** Jacklyn Cock,2018-03-01 Writing the Ancestral River is an illuminating and unusual biography of the Kowie River in the Eastern Cape This tidal river runs through the centre of what used to be called the Zuurveld a formative meeting ground of different peoples who have shaped our history Khoikhoi herders Xhosa pastoralists Dutch trekboers and British settlers Their direct descendants continue to live in the area and interact in ways that have been decisively shaped by their shared history Besides being a social history this is also a natural history of the river and its catchment area where dinosaurs once roamed and cycads still grow As the book shows the natural world of the Kowie has felt the effects of human settlement most strikingly through the establishment of a harbour at the mouth of the river in the 19th century and the development of a marina in the late 20th century Both projects have had a decisive and deleterious impact on the Kowie People are increasingly reconnecting with nature and justice through rivers Acknowledging the past and the inter generational racialised privileges damages and denials it established and perpetuates is necessary for any shared future By focusing on this little river the book raises larger questions about colonialism capitalism development and ecology and asks us to consider the connections between social and environmental injustice
