Can't Remember What I Forgot Sue Halpern,2009-05-26 Behind the Scenes of Cutting Edge Memory Research When Sue Halpern decided to emulate the rst modern scientist of memory Hermann Ebbinghaus who experimented on himself she had no idea that after a day of radioactive testing her brain would become so hot that leaving through the front door of the lab would trigger the alarm This was not the rst time while researching Can t Remember What I Forgot that Halpern had her head examined nor would it be the last Like many of us who have had a relative or friend succumb to memory loss who are getting older and who are hearing statistics about our own chances of falling victim to dementia Halpern wanted to nd out what the experts really knew how close science is to a cure to treatment to accurate early diagnosis and of course whether the crossword puzzles sudokus and ballroom dancing we ve been told to take up can really keep us lucid or if they re just something to do before the inevitable overtakes us Sharply observed and deeply informed Can t Remember What I Forgot is a book full of vital information and a solid dose of hope
