The Fate of Rome Kyle Harper, 2017-10-02 How devastating viruses pandemics and other natural catastrophes swept through the far flung Roman Empire and helped to bring down one of the mightiest civilizations of the ancient world Here is the monumental retelling of one of the most consequential chapters of human history the fall of the Roman Empire *The Fate of Rome* is the first book to examine the catastrophic role that climate change and infectious diseases played in the collapse of Rome's power a story of nature's triumph over human ambition Interweaving a grand historical narrative with cutting edge climate science and genetic discoveries Kyle Harper traces how the fate of Rome was decided not just by emperors soldiers and barbarians but also by volcanic eruptions solar cycles climate instability and devastating viruses and bacteria He takes readers from Rome's pinnacle in the second century when the empire seemed an invincible superpower to its unraveling by the seventh century when Rome was politically fragmented and materially depleted Harper describes how the Romans were resilient in the face of enormous environmental stress until the besieged empire could no longer withstand the combined challenges of a little ice age and recurrent outbreaks of bubonic plague A poignant reflection on humanity's intimate relationship with the environment *The Fate of Rome* provides a sweeping account of how one of history's greatest

civilizations encountered and endured yet ultimately succumbed to the cumulative burden of nature's violence. The example of Rome is a timely reminder that climate change and germ evolution have shaped the world we inhabit in ways that are surprising and profound.

The Mediterranean World in Late Antiquity Averil Cameron, 2015-04-29 This book provides both a detailed introduction to the vivid and exciting period of late antiquity and a direct challenge to conventional views of the end of the Empire.

The Cambridge Companion to the Age of Attila Michael Maas, 2014-09-29 This book examines the age of Attila roughly the fifth century CE, an era in which western Eurasia experienced significant geopolitical and cultural changes. The Roman Empire collapsed in western Europe, replaced by new barbarian kingdoms, but it continued in Christian Byzantine guise in the eastern Mediterranean. New states and peoples changed the face of northern Europe, while in Iran the Sasanian Empire developed new theories of power and government. At the same time, the great Eurasian steppe became a permanent presence in the European world. This book treats Attila, the notorious king of the Huns, as both an agent of change and a symbol of the wreck of the old world order.

Expectations of Justice in the Age of Augustine Kevin Uhalde, 2013-03-26 Augustine, bishop of Hippo between 395 and 430, and his fellow bishops lived and worked through massive shifts in politics, society, and religion. Christian bishops were frequently asked to serve as intellectuals, legislators, judges, and pastors, roles and responsibilities that often conflicted with one another and made it difficult for bishops to be effective leaders. *Expectations of Justice in the Age of Augustine* examines these roles and the ways bishops struggled to fulfill or failed to fulfill them, as well as the philosophical conclusions they drew from their experience in everyday affairs such as oath-swearing and in the administration of penance. Augustine and his near contemporaries were no more or less successful at handling the administration of justice than other late antique or early medieval officials. When bishops served in judicial capacities, they experienced firsthand the complex inner workings of legal procedures and social conflicts, as well as the fallibility of human communities. Bishops represented divine justice while simultaneously engaging in and even presiding over the sorts of activities that animated society: business deals, litigations, gossip, and violence, but also made justice hard to come by. Kevin Uhalde argues that serving as judges even informally compelled bishops to question whether anyone could be guaranteed justice on earth, even from the leaders of the Christian church. As a result, their ideals of divine justice fundamentally changed in order to accommodate the unpleasant reality of worldly justice and its failings. This philosophical shift resonated in Christian thought and life for centuries afterward and directly affected religious life, from the performance of penance to the way people conceived of the Final Judgment.

The Age of Liutprand Christopher Heath, 2024-11-14 *The Age of Liutprand* provides a thematic analysis of Lombard Italy in the pivotal early part of the 8th century. It surveys the crucial role and rule of Liutprand, 712-44, the powerful and effective Lombard king. By restoring this successful exemplar of Lombard kingship to the centre of events and developments in the Italian peninsula, this book pulls together all the pertinent evidence for a new kingship in Lombard Italy that used a sophisticated set of strategies to enhance, deepen, and expand its

effectiveness In presenting an evaluation of Italy on the cusp of dramatic change this book explains how not only the kingship of Liutprand but also his legal reforms and his relationships with the Church and neighbouring peoples all contributed to a model of kingship successfully and subsequently deployed by Charlemagne and his successors later in the 8th century

Late Antiquity on the Eve of Islam Averil Cameron, 2017-05-15 This volume reflects the huge upsurge of interest in the Near East and early Islam currently taking place among historians of late antiquity At the same time Islamicists and Qur'anic scholars are also increasingly seeking to place the life of Muhammad and the Qur'an in a late antique background Averil Cameron herself one of the leading scholars of late antiquity and Byzantium has chosen eleven key articles that together give a rounded picture of the most important trends in late antique scholarship over the last decades and provide a coherent context for the emergence of the new religion A substantial introduction with a detailed bibliography surveys the present state of the field as well as discussing some recent themes in Qur'anic and early Islamic scholarship from the point of view of a late antique historian The volume also provides an invaluable introduction to recent scholarship making clear the ferment of religious change that was taking place across the Near East before during and after the lifetime of Muhammad It will be essential reading for Islamicists and late antique students and scholars alike

Territories of Evil, 2008-01-01 Evil is not only an abstract concept to be analyzed intellectually but a concrete reality that we all experience and wrestle with on an ongoing basis To truly understand evil we must always approach it from both angles the intellectual and the phenomenological This same assertion resounds through each of the papers in this volume in which an interdisciplinary and international group including nurses psychologists philosophers professors of literature history computer studies and all sorts of social science presented papers on cannibalism the Holocaust terrorism physical and emotional abuse virtual and actual violence and depravity in a variety of media from film to literature to anim to the Internet Conference participants discussed villains and victims dictators and anti heroes from 921 AD to the present and considered the future of evil from a number of theoretical perspectives Personal encounters with evil were described and analyzed from interviews with political leaders to the problems of locating and destroying land mines in previous war zones The theme of responsibility and thinking for the future is very much at the heart of these papers how to approach evil as a question to be explored critiqued interrogated reflected upon owned The authors urge an attitude of openness to new interpretations new perspectives new understanding This may not be a comfortable process it may in fact be quite disturbing But ultimately it may be the only way forward towards a truly ethical response The papers in this collection provide a wealth of food for thought on this most important question

Latin Epics of the New Testament Roger P. H. Green, 2006-11-23 Latin Epics of the New Testament is about the growth of Christianity and in particular the challenge of engaging with the Roman intellectual elite and its highly sophisticated Graeco Roman tradition In this culture epics like those of Vergil and Lucan were highly valued for their language their heroic themes and their Rome centred ideologies Roger Green examines each of these epics in detail showing

how the three authors Juvenius Sedulius and Arator repackage the New Testament as epic and try to make a bridge between two very different cultures He explores the fascinating questions of how these authors exploit epic themes such as gods heroes war and fate without playing down the very real theological concerns of their times All these poets were popular in the Middle Ages and later and are the pioneers of poetry that leads to Renaissance epic and the famous poems of John Milton

Female founders in Byzantium and beyond Lioba Theis, Margaret Mullett, Michael Grünbart, 2014 This volume presents the results of a scholarly meeting which focused on the patronage of women in the Byzantine Empire In their scope the articles address broadly not only the founding or re founding of churches and monasteries but also their rich decoration as well as numerous smaller donations In spite of increased attention to gender research in recent years a comparative treatment of the legal and economic potential that women in Byzantium could exercise in order to exert independent influence has been lacking thus a gender specific viewpoint for the volume was intentionally chosen Bride of Blood, Bride of Light Susan Ashbrook Harvey, 2009 This study seeks to address the common bridal imagery pervasive in ancient Syriac Christianity by asking how Jacob of Serug employed the presentation of biblical women in his homilies to serve as imagery for the Church Bibliographic Index , 2008
