

Biology

The Origins of Life and Evolutionary Theory

Multiple-Choice: Choose the one alternative that best completes the statement or answers the question.

- Which of the following would not be considered evidence that two different organisms shared a recent common ancestor?
A. similarities in their DNA
B. similarities in their embryological development
C. the presence of analogous structures
D. the presence of homologous structures
- The human appendix can be classified as a(n) _____ since it has no known function necessary to human survival.
A. analogous structure
B. homologous structure
C. vestigial structure
D. all of the above
- The similarity in the body shape and fins of a shark and a porpoise is an example of _____.
A. co-evolution
B. convergent evolution
C. divergent evolution
D. vestigial structures
- The wings of a bat when compared to the wings of a bird can be classified as _____ because they are anatomically similar they have any similar embryological origins.
A. analogous structures
B. homologous structures
C. vestigial structures
D. all of the above
- An organism that is well adapted to its environment and reproduces more successfully than other organisms within the same population is a result of that organism's _____.
A. fitness
B. reproductive efficiency
C. longevity
D. health
- Which of the following pairs of structures is homologous?
A. an alligator leg and a human forearm
B. horse leg and a bird wing
C. a bat wing and a dolphin flipper
D. a penguin wing and a seal flipper
E. all of the above
- What does the presence of a vestigial structure in a modern organism indicate?
A. The structure was probably functional and necessary to the survival of some ancestor of the modern organism but no longer has any functional purpose for that organism.
B. There is a limited number of genes that can be expressed during the lifetime of an organism thereby resulting in some structures becoming vestigial.
C. The structure became vestigial in the modern organism because the organism did not use this structure often enough.
D. Vestigial structures are still present in most modern organisms so that they may later reuse that structure if the need arises.
- Which of the following would be likely to cause adaptation?
A. mutation
B. genetic drift
C. natural selection
D. all of the above
- Natural selection apparently favors peacocks with big tails. Why?
A. Males with big tails live longer
B. They are healthier than other males
C. They have more reproductive success
D. They can escape predators more easily
- Which of the following structures is homologous to the wing of a bat?
A. The wing of a fly
B. The arm of a man
C. The eye of a newt
D. The tongue of an adder
- The notion that educated persons will have smarter children is consistent with the ideas of:
A. Darwin
B. Linnaeus
C. Cuvier
D. Lamarck
E. Hutton
- Which species is most likely to survive changing environmental conditions?
A. a species that reproduces sexually
B. a species that has a limited life span
C. a species that has few variations
D. a species that competes with similar species
- Which statement is not part of the concept of natural selection?
A. More individuals are produced than will survive.
B. Individuals that possess the most favorable variations will have the best chance of reproducing.
C. Genes of an individual adapt to a changing environment.
D. Variation occurs among individuals in a population.
- Similarity in the skeletal structures of whales, bats, and humans leads to the conclusion that they
A. have the same chromosome number
B. belong to the same order of mammals

Ancient Geopolymers in South America and Easter Island Joseph Davidovits,2024-11-16 This book presents the study on Ancient Geopolymers in South America and Easter Island regions exploring the artificial nature of the volcanic rocks used in the construction of Easter Island s statues Contrary to the belief that the statues were carved and transported Davidovits suggests they were made on site using geopolymer technology He proposes that this knowledge came from Amerindians from the Andes specifically the Tiahuanaco region near Lake Titicaca The book is divided into two parts the first examines geopolymeric artificial stone technologies in the Andes and the second establishes a connection between these technologies and Easter Island 3 700 km away Davidovits research includes geological expeditions SEM analysis petrography and a comprehensive review of international literature It is intriguing to observe that in both cases Pumapunku Tiwanaku in the Andes and Easter Island volcanic rocks are involved which contain biological carbon These discoveries undeniably support the theory of geopolymeric artificial manufacturing challenging traditional archaeological views Naval Training Activities on the Island of Vieques, Puerto Rico United States. for the perfect preparation method we've got you covered

- i Reasons to choose GRE Verbal Reasoning Supreme
- ii Master every question style with proven methods and strategies
- iii Over 575 meticulously crafted GRE prep questions to challenge and elevate your skills
- iv Deep dive with 4 complete Verbal practice tests mirroring the real GRE experience
- v Explore a wide range of topics from physical sciences to arts, business, and more

Our study guide equips you with 575 practice questions ensuring you're prepared for every possible scenario in the GRE Verbal section. Additionally, the 4 complete Verbal practice tests will help get an idea of the actual GRE General Test. Each question is a step towards your success, backed by elaborate answers that help you think critically and logically. Our book also guides you through the strategies you need to excel. The purchase of this book comes with additional online resources to help you get the better of the stress that you might face during preparation and also aid you in coming up with a routine so that you are skillfully able to scale the entire syllabus and practice your concepts as you go. Don't settle for less when you can have it all. Prepare effectively, boost your confidence, and come out on top with GRE Verbal Reasoning Supreme Study Guide with Practice Questions. Your success story starts here.

The Study of Society (RLE Social Theory) Kathleen Joan Heasman, 2020-07-26 In this book Dr Heasman begins by stating some central questions and answers concerning sociology and how we are to set about studying society. It goes on to deal with family groupings and social differences with education and the part it plays in socialization with the meaning and the importance of social differences and with the relative importance of work and leisure and the ways in which leisure can be used. It considers the effects of the change in the size of the population in the last hundred years upon social life in Britain, examines the problems of social change and looks at order in society and the way it is affected by different forms and aspects of government. The result is a thorough, comprehensive but at all times lucid introduction to the subject.
