[Proceedings of the 4th International Conference on Linguistics and Culture \(ICLC-4 2023\)](#) Muhammad Hasyim, 2024-05-22 This is an open access book Research and teaching activities in the fields of language literature and culture are still being carried out even during the Covid 19 era that hit the world It is undeniable that the results of research and learning of language literature and culture at this time were a bit hindered because most activities were carried out from home During the Covid 19 period which started in early 2020 practically more activities were done at home Likewise institutions during the Covid 19 era were carried out online For example the Language Agency continues to carry out activities but it is carried out online such as online webinars that contribute to the wider community in accordance with the duties and functions of the Language Agency carried out using a hybrid method or completely online Various events are packaged creatively and innovatively to produce a new spirit in speaking Research and teaching of language literature and culture during the Covid 19 period resulted in many amazing innovations and creativity in line with technological developments Covid 19 has inspired many in research on language literature and culture In the field of language you can see research on the language used in Covid 19 such as said cases of suspected respiratory tract infection ODP People Under Monitoring confirmed cases a person who is late known to be infected with Covid 19 etc That s the content Content on YouTube about the use of language is a hot object of research to research In terms of culture the Government is making various efforts to break the chain of the spread of the Covid 19 pandemic in a massive and systematic manner Covid 19 is not only a deadly virus but has a domino effect that is also terrible One of the policies used by the government in preventing and controlling the spread of Covid 19 is implementing the Large Scale Social Restrictions PSBB policy As an investment culture also requires strategies and enablers so that it is able to achieve the target of the happiness and welfare of the Indonesian people This strategy is implemented through providing for a diversity of cultural expressions developing cultural practices utilizing cultural promotion objects accelerating institutional reform and increasing the government s role as a facilitator Teaching issues especially teaching methods of language literature and culture need to be

highlighted in terms of IT based innovation and creativity after Covid 19 How especially teaching methods in applying the material Research on learning methods has also been carried out a lot especially methods that focus on students entering the new normal era or the new era after Covid 19 with innovative research and learning of language literature and culture It is interesting to reveal a major event namely the 3rd International Conference on Linguistics and Cultural Studies sponsored by the Faculty of Cultural Sciences Hasanuddin University Makassar

The Persistence of Critical Theory Gabriel R.

Ricci,2017-07-05 The latest volume of Culture and Civilization gathers contemporary exponents of critical theory specifically those based in the Frankfurt School of social thinking Collectively this volume demonstrates the continuing intellectual viability of critical theory which challenges the limits of positivism and materialism We may question how the theoretical framework of Marxism fails to coordinate with the conditions that defined labor forces as did Max Horkheimer and Theodor Adorno or deliberate on the conditions that justify the claims we make through public discourse as did Jurgen Habermas Or like Axel Honneth we may reflect on recognition theory as a means of addressing social problems Whatever our objective the focus of critical theory continues to be the consciousness of established positive interests that without debate may sustain injustices or conditions which the public may not have chosen to impose Throughout the hardship of punitive dismissal and exile in the 1930s and 40s and the shock of the New Left in the 1960s and 70s and finally the later linguistic and pragmatic turn the Frankfurt School has sustained the idea that people escape disaffection and alienation when their knowledge of the social and political world is dialectically mediated through creative interaction This new volume in the Culture and Civilization series continues the tradition of critical thought

Chaucer's Ethical Philosophy Laura Ashe,2025-01-02

Chaucer s Ethical Philosophy argues that Chaucer s fictions engage with the most urgent questions of modern political and moral philosophy Close analysis of Troilus and Criseyde the Canterbury Tales and the Book of the Duchess reveals the ways in which Chaucer anticipates modern philosophical debates using his fictions to explore the ethics of subjectivity and recognition agency and moral responsibility concerns that Chaucer experimentally formulated and decomposed across his works are amongst those that most animate and trouble contemporary ethical philosophy This book places Chaucer in close dialogue not only with medieval philosophy and theology and his great European literary sources Boccaccio Dante Guillaume de Machaut but with major figures and concepts of modern philosophical thought Hegel Levinas Wittgenstein Butler recognition subjectivity gender It illuminates his use of distinctively medieval forms of narrative to explore ideas and develop philosophies that we have been conditioned to think of as exclusively modern In this he reveals both the essential nature of the questions and the contingent socially and culturally conditioned nature of our answers and he shows us that medieval structures of thought remain central to our understandings of the world In response to the fundamental ethical question how should I treat another person Chaucer s fictional experiments are shown to be as philosophically complex and ethically powerful as anything in current thought

When Students Protest Judith Bessant, Analicia Mejia Mesinas, Sarah Pickard, 2021-08-20 Student political action has been a major and recurring feature of politics across the globe throughout the past century

Students have been involved in a full range of public issues from anti colonial movements anti war campaigns civil rights and pro democracy movements to campaigns against neoliberal policies austerity racism misogyny and calls for climate change action Yet student protest actions are frequently dismissed by political elites and others as adolescent mischief or manipulation of young people by duplicitous adults This occurs even as many working in government traditional media and educational organisations attempt to suppress student movements Much of mainstream scholarly work has also deemed student politics as undeserving of intellectual attention These three edited volumes of books help set the record straight Written by scholars and activists from around the world When Students Protest Secondary and High Schools is the first of a three volume study The authors document and analyse how generations of secondary and high school students in many countries have been thoughtful committed and effective political actors and especially so over the past decade This book also reveals moves by power holders to stigmatise repress and even criminalise student political campaigns While these efforts were sometimes successful this volume shows that whether responding to problems within schools or engaging the major public issues of the day school activists have renewed and revived the political culture of their society while also challenging long held age based prejudices *Portraits of Women in International Law* Immi Tallgren,2023 This fascinating volume offers a set of biographies of women and gender non conforming people who made a difference in international law but who in most cases were never well known or have been forgotten These portraits describe each individual s engagement with international law the context in which they worked and the barriers they faced Warrior Women and Trans Warriors Carolina Castellanos Gonella,2024-11-15 Latin American literature has depicted warrior woman and trans warrior characters in armed conflicts but literary critics have not paid much attention to their empowerment They also have critiqued these characters using traditional gender binary concepts or have viewed their access to power as evil or abnormal *Warrior Women and Trans Warriors Performing Masculinities in Twentieth Century Latin American Literature* introduces a new perspective by analyzing how one trans warrior and two warrior women from three canonical novels contest traditional codes of behavior and appearance It examines Pintada in the Mexican novel *Los de abajo* 1915 Do a B rbara in the Venezuelan novel *Do a B rbara* 1929 and Diadorim in the Brazilian novel *Grande sert o veredas* 1956 *Warrior Women and Trans Warriors* focuses on how these three characters challenge conventional norms and empower themselves by giving orders using weapons fighting competing with other characters exposing traditional gender ideologies and transgressing sartorial gender rules Drawing on trans theory intersectionality gender performance theory and masculinities studies this book argues that performing masculinities allow these characters to occupy the place of the most desired position of their contexts **Boundaries of Queerness** Katharina Kehl,2024-07-24 This book explores how race sexuality and gender are employed in political projects of belonging whilst examining the implications for individual identity formation in the context of Sweden

Whistleblowing Kate Kenny,2019-04-02 Society needs whistleblowers yet to speak up and expose wrongdoing often

results in professional and personal ruin Kate Kenny draws on the stories of whistleblowers to explain why this is and what must be done to protect those who have the courage to expose the truth Despite their substantial contribution to society whistleblowers are considered martyrs more than heroes When people expose serious wrongdoing in their organizations they are often punished or ignored Many end up isolated by colleagues their professional careers destroyed The financial industry rife with scandals is the focus of Kate Kenny's penetrating global study Introducing whistleblowers from the United States the United Kingdom Switzerland and Ireland working at companies like Wachovia Halifax Bank of Scotland and Countrywide Bank of America Whistleblowing suggests practices that would make it less perilous to hold the powerful to account and would leave us all better off Kenny interviewed the men and women who reported unethical and illegal conduct at major corporations in the run up to the 2008 financial crisis Many were compliance officers working in influential organizations that claimed to follow the rules Using the concept of affective recognition to explain how the norms at work powerfully influence our understandings of right and wrong she reframes whistleblowing as a collective phenomenon not just a personal choice but a vital public service

Decolonising the Mediterranean Gabriele Proglia, 2017-03-07 Decolonising the Mediterranean means first and foremost investigating how the legacy of colonial rule over bodies and land has been used by other entities and powers to impose new forms of hegemony after the fall of empires and European powers It means denouncing and dissecting the tools employed in the production of new geometries of power in the global Mediterranean as well as in the farthest most recondite corners of the Mediterranean World Decolonising the Mediterranean is an epistemological practice of border dismantling and scrutiny of the ways in which powers overlap and intertwine The multiplication of the border is investigated in this volume from an in between position namely a specific positionality of subjectivities in order to connect the global and local and address Mediterranean issues with a transnational approach Decolonising the Mediterranean means thinking of the Mediterranean as a space of investigation beyond its geographical boundaries Finally it requires deconstructing the power relations at play viewing the Mediterranean as an excess space of signification in order to reconsider the past and present stories and subjectivities erased by Eurocentric nationalist historical discourse In this sense the Mediterranean may then be more than a method a matter of politics or a space without borders where the future can be reinvented from the bottom up This volume is structured into six chapters each written by a different author focusing on a single North African Maghreb and Mashrek country's colonial legacy to investigate borders in a transnational perspective While the research directions and topics of investigation adopted here are different they can all be situated on the boundary line described above and each chapter suggests a specific path for decolonising knowledge

The Look of a Woman Eric Plemons, 2017-07-27 Developed in the United States in the 1980s facial feminization surgery FFS is a set of bone and soft tissue reconstructive surgical procedures intended to feminize the faces of trans women While facial surgery was once considered auxiliary to genital surgery many people now find that these procedures confer distinct benefits

according to the different models of sex and gender in which they intervene Surgeons advertise that FFS not only improves a trans woman s appearance it allows her to be recognized as a woman by those who see her In *The Look of a Woman* Eric Plemons foregrounds the narratives of FFS patients and their surgeons as they move from consultation and the operating room to postsurgery recovery He shows how the increasing popularity of FFS represents a shift away from genital based conceptions of trans selfhood in ways that mirror the evolving views of what is considered to be good trans medicine Outlining how conflicting models of trans therapeutics play out in practice Plemons demonstrates how FFS is changing the project of surgical sex reassignment by reconfiguring the kind of sex that surgery aims to change
