Mastering Canon EOS Flash Photography, 2nd Edition Nk Guy, 2016-03-18 In this updated second edition of the authoritative bestselling Mastering Canon EOS Flash Photography photographer NK Guy brings the book fully up to date with coverage of all the newest Canon gear that has hit the market since the first edition published in 2010 This includes coverage of the radio enabled Canon Speedlite 600EX RT and Canon Speedlite Transmitter ST E3 RT as well as the other Speedlites that have released since the first edition's publication Canon Speedlite 90EX 270EX II 320EX and 600EX And this is the first book to cover Canon's new affordable master unit the Speedlite 430EX III RT flash Digital cameras and flash technology have truly revolutionized photography in the 21st century Originally seen simply as a practical way to illuminate dark scenes with portable light flash today is used for a host of creative and nuanced applications including supplementing daylight designing complex scenes lit by multiple light sources and simply creating beautiful controllable light for portraiture With LCD screens on DSLRs the ability to get instant feedback on lighting setups is a great help in advancing one's lighting capabilities and encouraging experimentation However flash photography can still be a difficult artistic and technical challenge It's simple to get that harsh deer in the headlights look from built-in automatic flash but it is a far cry from beautiful light Creating natural looking images is not nearly as straightforward Mastering the properties of light and the ability to manipulate craft and direct it is a lifelong endeavor Those diving into Speedlights need some help Manuals are terse and the terminology is confusing this is where Mastering Canon EOS Flash Photography comes in This is the complete book on the subject guiding you through Canon's Speedlite system from off-camera portable flash to professional studio lighting It covers the fundamentals of flash metering technology discusses key lighting concepts and documents a wide range of Canon and third-party equipment Universal flash accessories studio gear and radio triggers are all thoroughly covered The book is lavishly illustrated with diagrams that demonstrate important functions and lighting arrangements and inspiring photos that show sophisticated flash techniques Though tailored for users of Canon EOS cameras owners of other camera systems will find much valuable information as well So whether you're just getting started with flash or you've picked up the bug for off-camera lighting from such popular websites as Strobist.com or you're making the leap into advanced studio work Mastering Canon EOS Flash Photography is your in-depth resource Includes a foreword by David Hobby noted photojournalist and founder of Strobist.com

Speedlights & Speedlites Lou Jones, 2012-11-12 Canon Speedlites and Nikon Speedlights are small off-camera flashguns that can provide big results if you know how to use them properly Acclaimed Boston photographers Lou Jones Bob Keenan and Steve Ostrowski guide you through the technical and creative aspects of how to get the most out of these powerful tools in this indispensable guide packed full of inspirational images and comprehensive diagrams of the lighting set-ups used to capture them They are significantly more advanced lighter and considerably cheaper than a standard flashgun and have many advantages They are small and cheap enough that a number

can be carried in your kit and they can be used in combination triggered wirelessly They use through the lens TTL metering which allows you to use the in camera LCD and histograms to calculate the required power direction rather than having to use a light meter or trial and error They use proprietary dedicated technology from Canon and Nikon that means there are no compatibility issues Getting the most out of them however remains a mystery most photographers still just use their speedlights in the same way as a standard flash gun This is where this book comes in
