Treasure Islands Nicholas Shaxson, 2025-04-16 A thrilling ride inside the world of tax havens and corporate masterminds While the United States experiences recession and economic stagnation and European countries face bankruptcy experts struggle to make sense of the crisis Nicholas Shaxson a former correspondent for the Financial Times and The Economist argues that tax havens are a central cause of all these disasters In this hard hitting investigation he uncovers how offshore tax evasion which has cost the U S 100 billion dollars in lost revenue each year is just one item on a long rap sheet outlining the damage that offshoring wreaks on our societies In a riveting journey from Moscow to London to Switzerland to Delaware Shaxson dives deep into a vast and secret playground where bankers and multinational corporations operate side by side with nefarious tax evaders organized criminals and the world s wealthiest citizens Tax havens are where all these players get to maximize their own rewards and leave the middle class to pick up the bill With eye opening revelations *Treasure Islands* exposes the culprits and its victims and shows how Over half of world trade is routed through tax havens The rampant practices that precipitated the latest financial crisis can be traced back to Wall Street s offshoring practices For every dollar of aid we send to developing countries ten dollars leave again by the backdoor The offshore system sits much closer to home than the pristine tropical islands of the popular imagination In fact it all starts on a tiny island called Manhattan In this fast paced narrative *Treasure Islands* at last explains how the system works and how it s contributing to our ever deepening economic divide

The Raging 2020s Alec Ross, 2025-09-23 In the face of unprecedented global change New York Times bestselling author Alec Ross proposes a new social contract to restore the balance of power between government citizens and business in *The Raging 2020s* For 150 years there has been a contract Companies hold the power to shape our daily lives The state holds the power to make them fall in line And the people hold the power to choose their leaders But now this balance has shaken loose As the market consolidates the lines between big business and the halls of Congress have become razor thin Private companies have become as powerful as countries As Walter Isaacson said about Alec Ross s first book *The Industries of the Future* The future is already hitting us and Ross shows

how it can be exciting rather than frightening Through interviews with the world's most influential thinkers and stories of corporate activism and malfeasance government failure and renewal and innovative economic and political models Ross proposes a new social contract one that resets the equilibrium between corporations the governing and the governed

The Most Dangerous Man in the World Andrew Fowler, 2025-06-18 In June 2024 after fourteen years of house arrest and incarceration Julian Assange the Australian journalist the CIA had planned to kidnap or kill was finally released from the UK's top security Belmarsh prison Years of campaigning by his family and Australian politicians from across the political spectrum had finally paid off Assange's plea bargain with the US Department of Justice produced the legal deal of the century Instead of serving a possible 175 year jail sentence Assange walked free What changed former US President Joe Biden's mind after years of appeals and hearings When WikiLeaks revealed evidence of American war crimes in Iraq Biden had called Assange a high tech terrorist Why did Biden now believe the time was right to end the pursuit and to cut a deal Andrew Fowler takes us inside the negotiations with the White House revealing a startling story of false hope courage resolve and the extraordinary resilience of the person Pentagon Papers whistleblower Daniel Ellsberg called the Most Dangerous Man in the World

Tomorrow's Economy Per Espen Stoknes, 2022-04-12 How we can achieve healthy growth more regenerative than destructive restoring equity rather than exacerbating inequalities In Tomorrow's Economy Per Espen Stoknes reframes the hot button issue of economic growth Going beyond the usual dialectic of pro growth versus anti growth Stoknes calls for healthy growth Healthy economic growth is more regenerative than destructive repairs problems rather than greenwashing them and restores equity rather than exacerbating global inequalities Stoknes a psychologist economist climate strategy researcher and green tech entrepreneur argues that we have the tools to achieve healthy growth but our success depends on transformations in government practices and individual behavior Stoknes provides a compass to guide us toward the mindset mechanisms and possibilities of healthy

growth **South Asia Development Update, April 2025** Weltbank,2025 Growth prospects for South Asia have dimmed The global economic environment has become more challenging and is a source of heightened downside risks After a decade of repeated disruptions South Asia s buffers to cushion new shocks are slim Tackling some of its greatest inefficiencies and vulnerabilities could help South Asia navigate this unusually uncertain outlook unproductive agricultural sectors dependence on energy imports pressures from rising global temperatures and fragile fiscal positions For most South Asian countries increased revenue mobilization is a prerequisite for strengthening fiscal positions Even taking into account the particular challenges of collecting taxes in South Asian economies such as widespread informal economic activity and large agriculture sectors South Asian economies face larger tax gaps than the average emerging market and developing economy EMDE This suggests the need for improved tax policy and administration Until fiscal positions have strengthened the burden of climate adaptation will disproportionately fall on the private sector If allowed sufficient flexibility private sector adaptation could offset about one third of the likely climate damage by 2050 This may however require governments to remove obstacles that prevent workers and firms from moving across locations and activities As growth prospects dim the challenge grows to create jobs for South Asia s rapidly expanding working age population South Asia s large diasporas could become a source of strength if their knowledge networks and other resources can be better tapped for investment and trade **Health**

The Future of Humanity Charles Thomas Taylor, 2025-05-11 This is a work of social philosophy which addresses

the critical problems confronting human societies in our time Many changes have happened in the world since WWII both progressive and reactive This book examines the present dilemma from a progressive liberal point of view The four parts which comprise the book are at once independent and interdependent essays each of which addresses a particular fundamental aspect of the problem of human existence in our time In broad terms Part One discusses what an optimal world would look like were we able to attain one Part Two examines the present human condition Part Three focuses on the role of religion in our time while Part Four addresses the problem of injustice or inequality In short The Future of Humanity is simply my modest contribution to a collaborative effort to build a better world *Offshore* William

Brittain-Catlin,2025-10-16 A revealing and chilling expos on the hidden side of global wealth and power A revealing and chilling expos on the hidden side of global wealth and power Offshore is an unprecedented exploration of perhaps the most mysterious aspect of global society today and one of the most provocative books about money and business to appear in the decade since the age of globalization began The world of offshore finance is one of dummy companies shadow bank accounts post office boxes foreign registries and the like which allow giant corporations such as Wal Mart British Petroleum and Citigroup to keep huge profits out of sight of investors regulators and the public Whether in the Cayman Islands or the shadowy redoubts of the Islamic financial center of Labuan Malaysia offshore is where the game of profit and loss is played A third of the world s wealth is held offshore Eighty percent of international banking transactions take place there Half the capital in the world s stock exchanges is parked offshore at some point Trained as a reporter and a private investigator William Brittain Catlin brings both skills to this gripping book He tells the story of how tax havens have become central to global finance today in so doing he takes us into the secret networks of Enron and Parmalat behind international trade disputes and into organized crime and terror networks giving disquieting evidence that through offshore practices the key value of capitalism and civilization alike freedom is being put in grave danger **The Oxford Handbook of International**

Political Economy ,2025-01-17 The field of International Political Economy IPE has rapidly developed into a central pillar in the study of International Relations and its interdisciplinary roots make it a rich and productive area of scholarly interest This Oxford Handbook analyses and evaluates the state of the art in IPE research Bringing together leading experts from a wide geographical and theoretical spectrum the Handbook provides accessible and comprehensive surveys on topics central to the study of International Political Economy As IPE scholarship evolves to explore global events such as financial crises and trade wars examining how politics is both a cause and a consequence of economics it highlights the practical and problem driven nature of the field The Handbook considers the purported European North American divide and the impact of the surrounding debate on the approach taken to the field The chapters review the scholarly literature outline future research opportunities and consider the ways in which world events have contributed to new research in the field The Handbook covers both the theoretical and methodological foundations of the field as well as substantive topics within it including

regulation foreign aid migration NGOs capital political military relations and many others The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Melbourne and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal s original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

Innovation for the Masses Neil Lee, 2025-09-30 An engaging solutions oriented look at how cities and nations can better foster innovation and equality From San Francisco to Shanghai many of the world s most innovative places are highly unequal with the benefits going to a small few Rather than simply asking how we can create more high tech cities and nations Innovation for the Masses focuses on what we can learn from places that foster innovation while also delivering the benefits more widely and equally In this book economist Neil Lee draws on case studies of Taiwan Sweden Austria and Switzerland to set out how innovation can be successfully balanced toward equity As high tech economies around the world suffer from polarized labor markets and political realities that lock in these problems this book looks beyond the United States to other models of distributing a leading edge economy Lee emphasizes the active role of the state in creating frameworks to ensure that benefits are broadly shared revealing that strong policies for innovation and mutual prosperity reinforce each other Ultimately Innovation for the Masses provides a vital window into alternative models that prioritize equity the roadblocks these models present and what other countries can learn from them going forward
