

The headlamp and cowl are compact and light. When off-road riding, the headlamp is easily detached.

Front forks provide 200mm of leg and 41mm in diameter for strength.

Speedometer is lightweight and compact. Tripmeter can be reset digit by digit.

Lightweight plastic fuel tank holds 9.5 liters of petrol.

Large YZ-style air scoops give the TT250 an aggressive profile while they direct cooling air into the engine.

Air filter has a large capacity and features easy access.

The special silencer is an expansion chamber type which allows the engine to breathe easier for added power and reduced noise levels.

Automatic decompression provides effortless starting.

Engine guard is strong yet extremely lightweight.

Transmission is ultra-strong with gear ratios specifically selected for enduro riding. CDI ignition gives maximum performance and is absolutely maintenance-free.

Swingarm is made from box-section aluminium to reduce unsprung weight and increase suspension response.

WORKSHOP MANUAL 250cc TO 750cc. INCLUDING THE 1968-1970 COMMANDO Floyd Clymer,2021-04-16 140 pages and
more than 140 illustrations and charts size 8 25 x 10 75 inches The original Norton factory Twin Cylinder workshop manual
contained maintenance and repair data for both the lightweight and heavyweight Norton twins manufactured between 1960
and 1968 including the 750cc Atlas model which was in production from 1962 1968 As many of the mechanical attributes
from the Atlas series were carried over into the early Norton Commando models we felt that the original Twin Cylinder
manual was somewhat lacking as it did not include repair data for the early Commando that evolved from the Atlas
Consequently we have updated and expanded this Floyd Clymer edition of the original Twin Cylinder manual to include the
OEM Norton manual part no 06 3062 for the 1968 1970 Commando 750cc models that were fitted with the Atlas style
exhaust and external rev counter drive to the timing cover Beginning with engine no 126125 February 1968 and the early
camshaft driven contact breaker models from engine no 131257 March 1969 While there is some duplication between the
Atlas and Commando repair information we felt that the Commando manual should be included in its entirety in order to
complete the coverage of the original Twin Cylinder manual from 1960 through the 1970 model year It should also be noted
that this manual includes significant maintenance and repair information for the AMC Norton Matchless G15 hybrids that
were manufactured from 1963 1967 engine numbers 107388 to 124371 IMPORTANT NOTE Many of the reprints found on
internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are
selling Many are nothing more than poor quality comb bound photocopies that are scanned and published complete with
greasy pages and thumbprints and as such are deceptively described as pre owned In addition they are often advertised for
the incorrect series and or model years of motorcycles However VelocePress com has been publishing licensed reprints of
motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be
assured you are purchasing a quality product We are pleased to offer this combined reprint of the Factory Twin Cylinder and
