Competency-Based Teacher Education for English as a Foreign Language Amber Yayin Wang,2021-11-25 Providing a series of chapters written by teacher educators in three continents this edited volume explores the concepts challenges possibilities and implementations of competency based instruction for developing English competencies in English as a foreign language EFL contexts Recent trends in education have emphasized the need to develop competencies that connect learning with real life performances This need has brought about a massive increase in the number of studies and scholarly works devoted to research into competency based education However for teachers and learners of EFL it is challenging to develop competencies for using a language that does not seem to connect with their real life scenarios The chapters apply the concept of competency based instruction in different EFL contexts and are structured around three themes Theory current thoughts on theories of competency based education Research empirical research on competency based teacher education Practice integrating competency based instruction into teacher education This book offers examples of competency based EFL teacher education through both research and practical applications In addition to the innovation in competency approaches the inclusion of language learning in virtual environments offers a valuable resource for scholars educators researchers and all those concerned with current and future education

The Mathematics Education for the Future Project - Proceedings of the 14th International Conference Alan Rogerson,Janina Morska,2017-07-01 This volume contains the papers presented at the International Conference on Challenges in Mathematics Education for the Next Decade held from September 10 15 2017 in Balatonf red Hungary The Conference was organized by The Mathematics Education for the Future Project an international edu cational project founded in 1986

Literacy in America Lawrence R. Samuel,2024-05-07 Literacy in America A Cultural History of the Past Century is a history of literacy in the United States over the last one hundred years Told chronologically and supported by hundreds of research studies done over the years as reported in scholarly journals the work sheds new light on the important role that literacy and reading in general have played in this country since the 1920s The subject is parsed through the voices of educators intellectuals and journalists who have weighed in on its many different dimensions Literacy is a key site of race gender and class offering insights related to the social and economic inequities that are embedded in our institutions The primary argument of Literacy in America is that literacy as a major part of education has functioned as a means of social control of children with authority figures dictating which reading material is acceptable

and which is not Literacy has also operated as a vehicle of citizenship for Americans of all ages and as a symbol of the responsibilities of democracy With its ambitious scope the strives to be a seminal guide to literacy in America and add to our understanding of everyday life in the United States Most interesting perhaps is the twisting unpredictable journey of literacy since the end of World War I when I argue that the subject s modern era began Rather than follow a straight line both the perception and reality of reading swerved over the years offering a trajectory that makes for a compelling narrative for anyone interested in American cultural and social history Controversy of some kind has often surrounded literacy in the United States this alone making it a fascinating source of interest to explore in detail

Assessment and Intervention for English Language Learners Susan Unruh, Nancy A. McKellar, 2017-03-07 This book presents evidence based practices for appropriate assessment of and school based services for young English language learners It identifies and addresses the challenges of assessing and intervening with these students at the curricular instructional environmental and individual levels particularly the complexities of determining the presence or absence of learning disabilities Case studies and comparisons with fluent English speakers illustrate the screening and evaluation process including multi tier system of supports MTSS and response to intervention RTI and proactive intervention planning in core literacy and math domains Together these chapters model effective teaching practice advocacy and teamwork with parents and colleagues as well as policy development toward meeting the needs of this diverse student population This invaluable guide Examines challenges of data collection when working with English language learners Traces the development of dual language fluency and competence Discusses language acquisition issues affecting oral language assessment Reviews commonly used assessment and intervention tools in use with English learners Features specialized chapters relating to reading writing and mathematics competencies Can be used regardless of first language spoken by students Assessment and Intervention for English Language Learners is an essential resource for researchers professionals and graduate students in diverse fields including school and clinical child psychology assessment testing and evaluation language education special education and educational psychology
