Breaking Away from the Textbook Ronald Hans Pahl, 2010-10-16 Teaching history should not be reciting an endless list of dead men entombed between the covers of a textbook Instead Breaking Away from the Textbook offers a fascinating journey through world history Not a comprehensive theory heavy guide this book focuses on active classroom activities methods for students to grapple with humanity s issues and innovative ways to show students the relevance of the past to the world today Simply put this book makes world history fun Soon your students will be busy debating thinking applying and learning about information that will stay with them for a lifetime The key to this wonderful work is its incorporation of various disciplines including art music and writing to create a fun and active classroom Volume I covers prehistory to the Renaissance and Volume II covers the Enlightenment to the 20th century Includes pictures and drawings appendices indexes maps and a bibliography Volume III More Creative Ways to Teach World History covers ancient times through the 20th century and beyond Appropriate for all grade levels **Outrageous Women of the Renaissance** Vicki León, 1999-03-25 Fabulous true stories of the most amazing women in history They were cool and courageous self reliant and sharp witted daring and determined They were the exciting inspiring and totally Outrageous Women of the Renaissance These remarkable women forged their own paths made their own rules and rocked the world Among the outrageous women you ll meet are Joan of Arc

the bold warrior who at age 17 became commander in chief of the French army and led her country's charge against the invading English Elisabetha Sirani the lightning quick painter who opened an all female art school and became an international sensation Grace O Malley the mother of three who ruled the high seas as Ireland's pirate queen and freedom fighter Christina of Sweden the eccentric Swedish monarch who awakened her country to the wonders of Renaissance art science and literature Gracia Mendes Nasi the Spanish humanitarian and philanthropist whose underground railroad saved the lives of countless persecuted Jews **Independent Publisher**, 1999 *History of Psychiatry and Medical Psychology* Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book's chapters e.g. Moras Marx's D B Weiner's examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 Short History of Psychiatry discussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease *Feminist Bookstore News*, 1998 *Pandora's Daughters* Jane Robinson, 2002 This enthralling history full of anecdotes and first hand accounts centres on women through the ages who have sidestepped restraint and raised the eyebrows of their contemporaries by choosing to make their own often highly idiosyncratic way of life The pedigree of the modern career woman is not generally supposed to be long reaching back only as far as those late Victorian pioneers who stormed the bastions of male professions Jane Robinson looks back over some 25 centuries and proves that theory quite wrong The 100 or so women portrayed here were busy behind the scenes of recorded history in the cause of earning an honest or perhaps not independent living Their enterprise and flair led them to careers as diverse as they are improbable ranging from engineers plumbers and surgeons to a naval commander in the Persian Wars a Dark Age Pope a successful Orcadian wind seller some pirates a Royal Marine and a stockbroker who ran for President of the United States The author considers such achievements against their place and time and the result is a tribute to an inspirational body of women whose significance has too long been ignored as well as a wonderfully entertaining read [The Publishers Weekly](#), 2001 **Made from Scratch** Jean Zimmerman, 2003 An affirmation of domesticity and its proud history explores how the

traditions of home and hearth as our grandmothers knew them are close to extinction and shows the myriad ways women are reconnecting these time honored customs **Women who Love Books Too Much** Brenda Knight, 2000 Bibliophiles will savor the vignettes of famous and obscure literary mothers of invention who lived and sometimes suffered for books throughout written herstory
