Notes on the Scripture Lessons for ..., 1898 *Military Review*, 1993 **Civil War Courts-Martial of North Carolina Troops** Aldo S. Perry, 2012-08-09 During the Civil War Confederate military courts sentenced to death more soldiers from North Carolina than from any other state This study offers the first exploration of the service records of 450 of these wayward Confederates most often deserters Arranged by army corps division and brigade it chronicles their military trials and frequent executions and offers explanations of how the lucky and the clever were able to avoid their fate Focus on court activity by company allows for comparisons that emphasize the wide disparity in discipline within a regiment and brigade By stressing the effectiveness of these deadly decisions as deterrents to others this work maintains that an earlier and wider reliance on execution would have strengthened the Confederacy sufficiently to force a negotiated end to the war thus saving many Confederate and Federal lives *The Canada-US Border in the 21st Century* John B. Sutcliffe, William P. Anderson, 2018-11-02 Borders are critical to the development and survival of modern states offer security against external threats and mark public policy and identity difference At the same time borders and borderlands are places where people ideas and economic goods meet and intermingle The United States Canada border demonstrates all of the characteristics of modern borders and epitomises the debates that surround them This book examines the development of the US Canada border provides a detailed analysis of its current operation and concludes with an evaluation of the border's future The central objective is to examine how the border functions in practice presenting a series of case studies on its operation This book will be of interest to scholars of North American integration and border studies and to policy practitioners who will be particularly interested in the case studies and what they say about the impact of border reform *The United States Catalog*, 1921 *Tumultuous Years* Robert J. Donovan, 1996 In January of 1949 the aftershocks of the Second World War were still jarring large parts of the globe although they had greatly diminished in the United States In Asia however turbulence continued to rise as a result of the collapse of Japan the tottering of the European empires after the war and the combustion produced by nationalism mixed with communism Because a segment of American opinion generally represented in the more conservative wing of the Republican party was very sensitive to events in Asia the tremors in the Far East came as harbingers of disturbing political conflict in the United States Robert J Donovan's *Tumultuous Years* presents a detailed account of Harry S Truman's presidency from 1949-1953 **"Uncool and Incorrect" in Chile** Stephen M. Streeter, 2023-02-21 The military coup that toppled Chilean President Salvador Allende in 1973 led to one of the most repressive military dictatorships in Latin American history Although the coup's full origin remains one of the great mysteries of the Cold War most assume that powers in Washington were largely to blame given the long history of U S interventionism in Latin America These assumptions were only strengthened by ongoing suspicions about the Nixon administration's role in a failed campaign to prevent Allende's inauguration in 1970 Providing a comprehensive account of the Nixon administration's

efforts to undermine and unseat Allende the book relies heavily on newly declassified records addressing several crucial questions regarding U S involvement The author explores several counterfactual scenarios to highlight important turning points and crucial decisions which contributed to the failure of Chilean democracy *The Politics of Perception* Katelyn E. Stauffer, Assistant Professor of Political Science Katelyn E Stauffer, 2025-12-17 In *The Politics of Perception* Katelyn E Stauffer tackles one of the central debates in research on women and politics to what extent does the presence of women in office shape citizens confidence in government and their views on democratic legitimacy Stauffer unpacks the contradictions of previous research and offers clear and compelling evidence that Americans view women s inclusion as a component of good governance Moreover Stauffer shows that perceptions of women s inclusion also leads to an increase in positive associations with the legislative process as well as greater confidence in institutions policy expertise and ability to produce effective outcomes across a host of issue areas *The Irish and the Making of American Sport, 1835-1920* Patrick R. Redmond, 2015-03-07 Jerrold Casway coined the phrase The Emerald Age of Baseball to describe the 1890s when so many Irish names dominated teams rosters But one can easily agree and expand that the period from the mid 1830s well into the first decade of the 20th century and assign the term to American sports in general This book covers the Irish sportsman from the arrival of James Deaf Burke in 1836 through to Jack B Kelly s rejection by Henley regatta and his subsequent gold medal at the 1920 Olympics It avoids recounting the various victories and defeats of the Irish sportsman seeking instead to deal with the complex interaction that he had with alcohol gambling and Sunday leisure pleasures that were banned in most of America at some time or other between 1836 and 1920 This book also covers the Irish sportsman s close relations with politicians his role in labor relations his violent lifestyle and by contrast his participation in bringing respectability to sport It also deals with native Irish sports in America the part played by the Irish in Team USA s initial international sporting ventures and in the making and breaking of amateurism within sport *Digest of Education Statistics 2006* Thomas D. Snyder, Sally A. Dillow, Charlene M. Hoffman, 2007 **Notes on the International S.S. Lessons [...]** R. R. Meredith, 1883
