

The Story of Village Palampur

Overview

An introduction to some basic concepts related to production through a hypothetical village called Palampur where farming is the main activity. The village also has several other activities such as small-scale manufacturing, dairy, transport, etc, carried out on a limited scale.

Introduction

Palampur is fairly connected with a well-developed system of roads, transport, electricity, irrigation, schools, and health centres. The story of Palampur takes us through the different types of production activities in the village. In India, farming is the main production activity across villages.

Organisation of Production

The main aim of production is to produce goods and services, which require four essential components.

1. Land and other natural resources such as water, forests, minerals
2. Labour
3. Physical Capital such as tools, machines, buildings, raw materials and money

A variety of raw materials are required during the process of production, such as the yarn used by the weaver and clay used by the potter. Money is also essential during production and both of them in hand are called working capital. The fourth requirement is knowledge and enterprise to be able to put together land, labour and physical capital and produces an output. The factors of production are combining of land, labour, physical capital and human capital.

Story Of Village Palampur Essay

Kirin Narayan

Story Of Village Palampur Essay:

Everyday Creativity Kirin Narayan, 2016-11-22 Kirin Narayan's imagination was captured the very first time that as a girl visiting the Himalayas she heard Kangra women join their voices together in song. Returning as an anthropologist she became fascinated by how they spoke of singing as a form of enrichment bringing feelings of accomplishment, companionship, happiness, and even good health—all benefits of the everyday creativity she explores in this book. Part ethnography, part musical discovery, part poetry, part memoir, and part unforgettable portraits of creative individuals, this unique work brings this remote region in North India alive in sight and sound while celebrating the incredible powers of music in our lives. With rare and captivating eloquence, Narayan portrays Kangra songs about difficulties on the lives of goddesses and female saints as a path to well-being. Like the intricate geometries of mandala patterns drawn in courtyards or the subtle balance of flavors in a meal, well-crafted songs offer a variety of deeply meaningful benefits as a way of making something of value as a means of establishing a community of shared pleasure and skill as a path through hardships and limitations and as an arena of renewed possibility. *Everyday Creativity* makes big the small world of Kangra song and opens up new ways of thinking about what creativity is to us and why we are so compelled to engage it.
