A Leader's Guide to Science Curriculum Topic Study Susan Mundry, Page Keeley, Carolyn Landel, 2009-11-24

The Curriculum Topic Study CTS process funded by the US National Science Foundation helps teachers improve their practice by linking standards and research to content curriculum instruction and assessment. Key to the core book Science Curriculum Topic Study, this resource helps science professional development leaders and teacher educators understand the CTS approach and how to design, lead, and apply CTS in a variety of settings that support teachers as learners. The authors provide everything needed to facilitate the CTS process, including a solid foundation in the CTS framework, multiple designs for half-day and full-day workshops, professional learning communities, and one-on-one instructional coaching facilitation, group processing, and materials management strategies, and a CD-ROM with handouts, PowerPoint slides, and templates. By bringing CTS into schools and other professional development settings, science leaders can enhance their teachers' knowledge of content, improve teaching practices, and have a positive impact on student learning.

The Oxford Handbook of Byzantine Studies Elizabeth Jeffreys, John F. Haldon, Robin Cormack, 2008

The Oxford Handbook of Byzantine Studies presents discussions by leading experts on all significant aspects of this diverse and fast-growing field. Byzantine Studies deals with the history and culture of the Byzantine Empire, the eastern half of the Late Roman Empire from the fourth to the fourteenth century. Its centre was the city formerly known as Byzantium, refounded as Constantinople in 324 CE, the present-day Istanbul. Under its emperors, patriarchs, and all pervasive bureaucracy, Byzantium developed a distinctive society: Greek in language, Roman in legal system, and Christian in religion. Byzantium's impact in the European Middle Ages is hard to overestimate: as a bulwark against invaders, as a meeting point for trade from Asia and the Mediterranean, as a guardian of the classical literary and artistic heritage, and as a creator of its own magnificent artistic style.
