Resnick, 2000-01-24 Cyberspace is no longer a mystery It has become irrevocably intertwined with everyday life facilitating everything from reading the news and paying the bills to ordering birthday presents We are in the midst of a revolution in mass communication and there now exists the technology for creating new forms of community empowering citizens and challenging existing power structures But will such changes occur In this fascinating book Michael Margolis and David Resnick ponder the effects of cyberspace on American Politics Our political system tends to normalize political activity and thus the Internet's vast potential could be lost rendering it just another purveyor of ignored information This broad examination begins with a history of cyberspace and moves through discussions of parties political interest groups candidates mass media information dissemination and commercial uses of the Internet *Politics as Usual* offers an innovative and exciting look into previously ignored aspects of the Internet and American politics *The Welfare State Nobody Knows* Christopher Howard, 2021-08-10 The Welfare State Nobody Knows challenges a number of myths and half truths about U S social policy The American welfare state is supposed to be a pale imitation of true welfare states in Europe and Canada Christopher Howard argues that the American welfare state is in fact larger more popular and more dynamic than commonly believed Nevertheless poverty and inequality remain high and this book helps explain why so much effort accomplishes so little One important reason is that the United States is adept at creating social programs that benefit the middle and upper middle classes but less successful in creating programs for those who need the most help This book is unusually broad in scope analyzing the politics of social programs that are well known such as Social Security and welfare and less well known but still important such as workers compensation home mortgage interest deduction and the Americans with Disabilities Act

Although it emphasizes developments in recent decades the book ranges across the entire twentieth century to identify patterns of policymaking Methodologically it weaves together quantitative and qualitative approaches in order to answer fundamental questions about the politics of U S social policy Ambitious and timely *The Welfare State Nobody Knows* asks us to rethink the influence of political parties interest groups public opinion federalism policy design and race on the American welfare state *Our Social World* Jeanne H. Ballantine,Keith A. Roberts,2011-10-26 In this brief text two leaders of the Teaching Sociology movement encourage students development of their sociological imaginations through role taking Assuming the role of a child living in poverty in India or of a member of an African tribe students learn to re envision their global society An innovative integrated framework provides core sociological concepts while features such as Contributing to Our Social World enable students to do public sociology Our Social World Condensed Version presents the perspective of students living in the larger global world *An Introduction to World Politics* Richard Oliver Collin,Pamela L. Martin,2012-08-02 In today s world students need to know that there is more to politics than just politics This clearly written text introduces students to world politics as a combination of comparative politics and international relations in an increasingly interconnected globe and explores topics that are sometimes left out of the equation health care the status of children changing roles of women in the developing world and the interplay among population growth resources the environment and sustainable development Designed specifically for introductory level students the book balances theory with authentic insights and examples that provide a compelling window into the struggles of citizens worldwide **American Book Publishing Record** ,2006 *Schools and Society* Jeanne H. Ballantine,Joan Z. Spade,2011-04-04 Offering a wide array of theoretical perspectives and methods a broad range of resources and both classic and contemporary studies this fully updated Fourth Edition uses the open systems approach to provide readers with a framework for understanding and analyzing the book s disparate topics Edited by Jeanne H Ballantine and Joan Z Spade both of whom actively teach Sociology of Education courses this text includes dozens of readable articles that illustrate major concepts and theoretical perspectives in the field *Education and Society in Comparative Context* Eija Kimonen,2015-12-17 What was the interrelationship between education and society during the twentieth century in the United States and India What is the essence of the historical development of educational policies and social systems in these two countries What philosophical views and developmental courses underlie their outdoor oriented education What are their aims of outdoor oriented education What procedures are connected with their outdoor oriented education These questions are examined in this unique volume This book is divided into three parts The first part creates a context for the comparison of the issues concerning education and society The central point of departure used here regards education as being closely related to the totality of culture and human activity The dialectic process between education and society is realized differently in accordance with the value objectives that provide the background for different societies This comparative educational study uses a historico

hermeneutical approach The second part analyzes the social systems and educational policies of the United States and India following their developmental trends and patterns The nature of the relationship between education and society for each country is further brought into focus when it is interpreted from the perspective of the philosophical views pedagogical aims and procedures of twentieth century outdoor oriented education The case studies provide an interesting insight into how changes in educational policy have been reflected in the every day pedagogical procedures used in schools in the United States and India The third part is an analysis and comparison of the phenomena previously presented that are related to education and society through the lenses suggested by sociological theories It compares the dimensions of the interrelationship between education and society from the standpoint of outdoor oriented education in the two countries during the twentieth century This thought provoking volume is intended for anybody interested in the interplay between education and society in all its complexity It offers a fascinating journey into the past and present of the issues that have defined the development of education and society in the United States and India

Two Presidents Are Better Than One

David Orentlicher, 2013-03-11 Can Orentlicher be serious in calling for a plural executive The answer is yes and he presents thoughtful and challenging arguments responding to likely criticisms Any readers who are other than completely complacent about the current state of American politics will have to admire Orentlicher's distinctive audacity and to respond themselves to his well argued points Sanford Levinson author of Framed America's 51 Constitutions and the Crisis of Governance In this refreshingly provocative book David Orentlicher explains why it is due time for us to reconsider dominant ideas about the presidency now arguably our most powerful political institution William E Scheuerman Indiana University When talking heads and political pundits make their What's Wrong with America lists two concerns invariably rise to the top the growing presidential abuse of power and the toxic political atmosphere in Washington In Two Presidents Are Better Than One David Orentlicher shows how the imperial presidency and partisan conflict are largely the result of a deeper problem the Constitution's placement of a single president atop the executive branch Accordingly writes Orentlicher we can fix our broken political system by replacing the one person one party presidency with a two person two party executive branch Orentlicher contends that our founding fathers did not anticipate the extent to which their checks and balances would fail to contain executive power and partisan discord As the stakes in presidential elections have grown ever higher since the New Deal battles to capture the White House have greatly exacerbated partisan differences Had the framers been able to predict the future Orentlicher argues they would have been far less enamored with the idea of a single leader at the head of the executive branch and far more receptive to the alternative proposals for a plural executive that they rejected Analyzing the histories of other countries with a plural executive branch and past examples of bipartisan cooperation within Congress Orentlicher shows us why and how to implement a two person two party presidency Ultimately Two Presidents Are Better Than One demonstrates why we need constitutional reform to rebalance power between the executive and legislative

branches and contain partisan conflict in Washington David Orentlicher is Samuel R Rosen Professor at Indiana University Robert H McKinney School of Law A scholar of constitutional law and a former state representative David also has taught at Princeton University and the University of Chicago Law School He earned degrees in law and medicine at Harvard and specializes as well in health care law and ethics *Struggle Democracy* Edward S. Greenberg,1999 **Pedagogies for Building Cultures of Peace** Catherine Baillie Abidi,2018-09-06 Pedagogies for Building Cultures of Peace explores how normalizations of violence are constructed from the perspective of young adults and how pedagogies can be created toward building cultures of peace Findings show the diverse ways in which enmity or the dehumanized other is constructed including through socialization processes associating difference as deficient systems of exclusion disengaged citizenship and cultures of competition and rivalry Results also show how critical adult education can reveal hidden forms of power embedded within normalizations of violence creating opportunities for peacebuilding education By collaboratively engaging in peace research with youth and by explicitly exploring power as a central component of violence violence transformation and peacebuilding education led by youth become imaginable **We Paved the Way** O. Jennifer Dixon-McKnight,2025-09-23 In the spring of 1969 hundreds of workers all Black and mostly female went on strike at Medical College Hospital and Charleston County Hospital to protest racial discrimination low wages and the marginalization of their dignity The movement began with an incident of wrongful termination in 1967 involving five Black women at Medical College Hospital that uncovered the pervasiveness of racial and economic discrimination at both hospitals The termination sparked outrage among other hospital workers who with support from local community leaders organized a movement that galvanized the city state and nation We Paved the Way Black Women and the Charleston Hospital Workers Campaign explores this campaign in the context of a broader protest tradition revealing it to be a full scale movement that demonstrates the power and complexity of Black women s activism in the mid twentieth century O Jennifer Dixon McKnight argues that the experiences of the women at the center of this conflict offer a window into the plight of Southern Black working class women and the ways in which they fought for equality access and well being Though much of what has been written about the hospital workers campaign focuses on the strike through an institutional lens Dixon McKnight uses extensive interviews and oral history to expand the scope of existing scholarship Local leaders such as Septima Clark Esau Jenkins William Saunders and Isaiah Bennett served as bridge builders for the Black community s involvement in protest which helped shape and nurture the hospital workers campaign By discussing the grassroots organizing that sparked the strike and tracing the aftermath of the conflict including what workers experienced in their return to work and their relationships with the Southern Christian Leadership Conference and Local 1199 Hospital and Nursing Home Employees Union this volume situates the hospital workers movement as a critical moment in the nation s long civil rights history

Heith,2015-12-03 In The Presidential Road Show Public Leadership in an Era of Party Polarization and Media Fragmentation Diane J Heith evaluates presidential leadership by critically examining a fundamental tenet of the presidency the national nature of the office The fact that the entire nation votes for the office seemingly imbues the presidency with leadership opportunities that rest on appeals to the mass public Yet presidents earn the office not by appealing to the nation but rather by assembling a coalition of supporters predominantly partisans Moreover once in office recent presidents have had trouble controlling their message in the fragmented media environment The combined constraints of the electoral coalition and media environment influence the nature of public leadership presidents can exercise Using a data set containing not only speech content but also the classification of the audience Diane J Heith finds that rhetorical leadership is constituency driven and targets audiences differently Comparing tone content and tactics of national and local speeches reveals that presidents are abandoning national strategies in favor of local leadership efforts that may be tailored to the variety of political contexts a president must confront
