Stuart Hall E Gli Studi Culturali:

Stuart Hall e gli studi culturali James Procter, 2007 Studi culturali Michele Cometa, 2010 **The Intangible Elements of Culture in Ethnoarchaeological Research** Stefano Biagetti, Francesca Lugli, 2016-06-02 This volume focuses on the intangible elements of human cultures whose relevance in the study of archaeology has often been claimed but rarely practiced In this book the authors successfully show how the adoption of ethnoarchaeological perspectives on non material aspects of cultures can support the development of methodologies aimed at refining the archaeological interpretation of ancient items technologies rituals settlements and even landscape The volume includes a series of new approaches that can foster the dialogue between archaeology and anthropology in the domain of the intangible knowledge of rural and urban communities The role of ethnoarchaeology in the study of the intangible heritage is so far largely underexplored and there is a considerable lack of ethnoarchaeological studies explicitly focused on the less tangible evidence of present and past societies Fresh case studies will revitalize the theoretical debate around ethnoarchaeology and its applicability in the archaeological and heritage research in the new millennium Over the past decade intangible has become a key word in anthropological research and in heritage management Archaeological theories and methods regarding the explorations of the meaning and the significance of artifacts resources and settlement patterns are increasingly focusing on non material evidence Due to its peculiar characteristics ethnoarchaeology can effectively foster the development of the study of the intangible cultural heritage of living societies and highlight its relevance to the study of those of the past **Studi culturali**, 2009 **È una questione di design** Loredana La Fortuna, 2023-06-27T00:00:00+02:00 Il volume ragiona sulle conseguenze sociali e culturali che il design con le sue innovazioni non solo determina ma impone In questa prospettiva il design inteso come una modalità di relazione fondamentale tra uomo e mondo che ha sempre e in ogni caso qualcosa di interessante da dire Nel momento in cui propone nuovi oggetti e nuove pratiche d'uso infatti il design introduce evoluzioni ma allo stesso tempo apre dilemmi e avvia processi di attribuzione di senso in una dinamica complessa che ha a che fare non solo con la cultura materiale ma anche con la sociologia l'antropologia le pratiche culturali e di significazione Il ragionamento critico di Loredana La Fortuna portato avanti attraverso gli strumenti della socio-semiotica e della prospettiva culturalista con l'obiettivo primo di rimarcare il ruolo del design nella cultura contemporanea e di individuare e suggerire quale possa essere la relazione tra design ed emancipazione sociale design e cultura visuale design e moda e ancora design e cibo **Quaderno di comunicazione**, 2007 Multidisciplinary Aspects of Design Francesca Zanella, Giampiero Bosoni, Elisabetta Di Stefano, Gioia Laura Iannilli, Giovanni Matteucci, Rita Messori, Raffaella Trocchianesi, 2023-12-30 This open access book gathers the contributions from the Design OPEN International Conference held in Parma Italy in May 2022 The conference explored the multidisciplinary aspects of design starting from its dimensions objects design as focused on the object on its functional and symbolic dimension and at the same time on the object as a tool for representing cultures

processes the designer's self-reflective moment which is focused on the analysis and on the definition of processes in various contexts spanning innovation social engagement reflection on emergencies or forecasting experiences design as a theoretical and practical strategy aimed at facilitating experiential interactions among people people and objects or environments and narratives making history representing through different media archiving narrating and exhibiting design The contributions which were selected by means of a rigorous international peer review process highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists

Cultural Studies 50 Years On Kieran Connell, Matthew Hilton, 2016-09-30 Stuart Hall conceptualized his time at the Centre for Contemporary Cultural Studies as a series of interruptions It was this fluidity that gave rise to Hall's conception of cultural studies as a moving target a fusion of a range of disciplinary approaches that was uniquely influenced by politics in the world beyond the academy The political commitments of those at the Centre were wide ranging and from its embrace of collective ways of research and decision making to its deployment of various strands of European Marxist theory had a critical impact on the Centre's working practices Yet as the diverse work of many of these same scholars has shown the political climate of the present day is almost unrecognizable from that of the mid 1960s to the mid 1980s arguably the most productive period in the Centre's history Cultural Studies 50 Years On explores how the political social and cultural contexts of the early 21st century influenced the object and method of doing cultural studies In bringing together a historical reassessment of the Centre with present day questions regarding the future of the field the aim is not to reduce cultural studies to the work of a single now defunct institution Instead it aims to utilize what is a critical moment in the trajectory of the field in order to take stock of where it has come from and to explore where it might be going
