Women's Fiction 1945-2005 Deborah Philips,2007-11-01 Organised around each decade of the post war period this book analyses novels written by and for women from 1945 to the present Each chapter identifies a specific genre in popular fiction for women which marked that period and provides case studies focusing on writers and texts which enjoyed a wide readership Despite their popularity these novels remain largely outside the canon of women s writing and are often unacknowledged by feminist literary criticism However these texts clearly touched a nerve with a largely female readership and so offer a means of charting the changes in ideals of femininity and in the tensions and contradictions in gender identities in the post war period Their analysis offers new insights into the shifting demands aspirations and expectations of what a woman could and should be over the last half century Through her analysis of women s writing and reading Philips sets out to challenge the distinction between popular and literary fiction arguing that neat categories such as popular middle brow and serious fiction need more careful definition **Ulrike Meinhof and the Red Army Faction** L.

and what strategies do they use to reinvent history in the present Coal in Modern Britain Charles-François Mathis, 2025-08-21 This is the first book to examine the social and cultural significance of coal in British society in the 19th and 20th centuries An English language translation of Charles François Mathis's award winning study Coal in Modern Britain gets to the heart of Britain's evolving relationship with this controversial energy source How did the general public use and manage coal on a daily basis Did they readily accept it did they reject it and how What were the material and cultural features of a society so reliant on coal Historians have long considered the political technical and economic structures of energy systems but here the vital social and cultural contexts are crucially laid bare The book demonstrates how coal shaped the living environment and the ways of thinking of British people from the early 19th century through to the coal minded society of the 1940s that had become entirely focussed on this fuel as an energy source Mathis emphasises the perspectives of ordinary consumers and looks at the energy cultures that emerged in everyday life in Britain during the period He looks at how coal impacted the land cities and homes of modern Britain along with the developing habits and routines surrounding coal use within the domestic setting Coal in Modern Britain also reveals how coal was taught to children both at school and at home and how it was vehemently defended against its rivals of oil electricity and gas during this peak time of fuel pre eminence **Are All the Women Still White?** Janelle Hobson, 2016-05-12 More than thirty years have passed since the publication of All the Women are White All the Blacks are Men But Some of Us are Brave Given the growth of women's and gender studies in the last thirty plus years this updated and responsive collection expands upon this transformation of consciousness through multiracial feminist perspectives The contributors here reflect on transnational issues as diverse as intimate partner violence the prison industrial complex social media inclusive pedagogies transgender identities and post digital futures This volume provides scholars activists and students with critical tools that can help them decenter whiteness and other power structures while repositioning marginalized groups at the center of analysis **Dicotomías culturales** José Ismael Gutiérrez, 2023-09-18 Este volumen reúne una decena de trabajos elaborados por distintos componentes y algunos colaboradores del grupo de investigación de la ULPGC conocido por el acrónimo PeCRaEC Pese a la heterogeneidad de su contenido todos los capítulos escrudiñan en algunas de las instancias duales en torno a las que pivotan la literatura y el cine de las últimas décadas del siglo XX y de lo que llevamos del XXI instancias que no obstante su riqueza se perciben como antagónicas y que unas veces en el vital espacio de la posmodernidad han acabado por avenirse renunciando a los fraccionamientos disciplinares y a las especializaciones rígidas mientras que otras han optado por favorecer a uno de los extremos de la oposición Aun cuando partan del análisis de la palabra y de la imagen artística las cuestiones abordadas en estos ensayos son generalizables a otros campos del plano cultural o de la realidad empírica destacando como vasos comunicantes entre todos ellos el énfasis en lo dicotómico en la representación de la otredad así como el silenciado valor de determinados contextos subalternos Young Women, Work, and Family in England 1918-1950 Selina Todd, 2005-09-22 This

fascinating account of young women's lives challenges existing assumptions about working class life and womanhood in England between the end of the First World War and the beginning of the 1950s While contemporaries commonly portrayed young women as pleasure loving leisure consumers this book argues that the world of work was in fact central to their life experiences Social and economic history are woven together to examine the working family and social lives of the maids factory workers shop assistants and clerks who made up the majority of England's young women Selina Todd traces the complex interaction between class gender and locale that shaped young women's roles at work and home indicating that paid work structured people's lives more profoundly than many social histories suggest Rich autobiographical accounts show that while poverty continued to constrain life choices young women also made their own history Far from being apathetic workers or pliant consumers they forged new patterns of occupational and social mobility were important breadwinners in working class homes developed a distinct youth culture and acted as workplace militants In doing so they helped to shape twentieth century society
