Subcommittee on Energy and Water Development,1998 *Floods - Hydraulics and Hydrology* Guangwei Huang,2025-05-21 In an era marked by intensifying storms and increasingly unpredictable weather patterns this book offers a timely and essential exploration of how water related academic fields can be integrated to meet today s challenges It brings together the dynamics of water movement and the understanding of watershed processes to provide a direction for flood risk management With clarity and depth it guides readers through the principles modeling techniques and practical strategies that lie at the heart of modern flood resilience Whether you re designing flood emergency response managing urban stormwater or studying the effects of climate change on water systems this book is a resource that will provide the new insights needed to address a variety of water related issues **Exploring the Little Rivers of New Jersey** James S. Cawley,Margaret Cawley,1993 I Will Take the Answer Ander Monson,2020-02-04 A moving and wide ranging collection of essays by the author of Letter to a Future Lover The idea of connection permeates I Will Take the Answer Ander Monson s fourth book of utterly original and intelligent essays How is our present connected to our past and future How do neural connections form memories and why do we recall them when we do And how do we connect with one another in meaningful ways across time and space In the opening essay which extends across the book in brief subsequent pieces a trip through a storm sewer in Tucson inspires Monson to trace the city s relationship to Jared Lee Loughner the gunman who shot Gabrielle Giffords and killed six bystanders along with how violence is produced and how we grieve and honor the dead With the formally inventive I in River he ruminates on water in a waterless city and the structures we use to attempt to contain and control it Monson also visits the exuberantly nerdy kingdom of a Renaissance Faire and elaborates on the enduring appeal of sad songs through the lens of March Sadness an online competition that he cofounded an engaging riff on the NCAA basketball tournament brackets in which sad songs replace teams As personal and idiosyncratic as the best mixtape I Will Take the Answer showcases Monson s deep thinking and broad ranging interests his sly wit his soft spot for heavy metal and his ability to tunnel deeply into the odd and revealing sometimes subterranean worlds of American life **Earth Observation for Flood Applications** Guy J-P. Schumann,2021-05-21 Earth Observation for Flood Applications Progress and Perspectives describes the latest scientific advances in Earth Observation With recent floods around the world becoming ever

more devastating there is a need for better science enabling more effective solutions at a fast pace This book aims at stretching from the current flood mapping to diverse real data so as to estimate the flood risk and damage Earth Observation for Flood Applications Progress and Perspectives includes three parts containing each a separate but complementary topic area under floods Each chapter unfolds various applications case studies and illustrative graphics In terms of flood mapping and monitoring the usage of multi sensor satellite data web services information microwave remote sensing methods are discussed in depth So this book is a valuable resource for scientists researchers and students in the area of earth observation Focuses in on one specific application field of Earth Observation Brings the latest scientific advances and perspectives from experts around the world Includes extensive figures tables and case studies to illustrate real life applications *The Financialisation of Power* Sarah Bracking, 2016-05-05 The financial crash of 2008 led people all over the world to ask how far financiers are in control of our lives To what extent does what they do with our money affect our everyday lives This book asks whether the crisis and subsequent use of public subsidies to help the international economy recover was a unique event or a symptom of a wider malaise where financiers have effectively usurped the power of governments and are running the political economy themselves *The Financialisation of Power in Africa* argues that growth is not always a good thing The development of more derivatives and faster financial exchanges are draining businesses of investment capital rather than serving to supply it applying financial logic does not save nature or protect biodiversity and other species This book outlines the concept of financialisation and how it has been used in various ways to explain the post 2008 crisis and global political economy There is a particular focus on these issues in reference to Africa which has a particular dependence on international money It takes the perspective of the modern state exploring how the political economy of development actually works in relation to African governance This book is of interest to students of international development and political economy and is a key source for policy makers interested in African studies and economic development **Congressional Record** United States. Potter, Anna

Scolobig, Eric M. Thompson, 2024-07-18 In the field of natural hazards communicating science with the public and stakeholders involves entering the challenging and complex world of hazard and risk communication the ultimate purpose of which is to reduce the impact of impending hazards on people at risk According to the Sendai Framework 2015 2030 it is important to strengthen the utilization of media including social media traditional media big data and mobile phone networks to support national measures for successful disaster risk communication Sometimes risk communication has collateral and unexpected side effects that may lead to the adoption of inadequate behaviors In some instances this can even result in legal actions being taken against scientists and or emergency managers The role of the media should be to facilitate the accurate communication of hazard and risk information but such communication is often hampered by the fact that journalists have different agendas and priorities than scientists risk communicators and emergency managers This does not always support people in their decision making Accurate communication of hazard and risk is especially important when decisions have to be made within contexts where uncertainty is very high This is often the case with geohazards such as earthquakes tsunamis volcanic eruptions and landslides
