 the Clinic meets the growing demand for simple practical and step by step advice for healthcare practice owners that want to
 embrace digital technology and introduce a sustainable new business model around video consultations to their practice It is
 very clear that digital is going to substantially disrupt the way healthcare works and telehealth is one substantial aspect of it
 Telehealth projects have been run for many years and their clinical effectiveness has been proven With the availability of
 bandwidth affordable high definition hardware and highly flexible workflow aware software now is the time for telehealth to
 become a standard way of delivering healthcare Many practices are aware of the upcoming changes but are not prepared for
 them Others have experimented and given up because they've not been able to make the transition sustainable Information
 about how to introduce video consultations is confusing and often focuses on technology and doesn't consider how to change
 behaviour and make the new service work financially There is no current step by step book available that provides answers to
 the questions most commonly asked by practice owners As the founder of CoviU a turn key telehealth solution for private
 practice Silvia has seen time and time again where practices fail and has worked with several businesses that have been very
 successful Silvia can provide realistic advice for practice owners on every aspect of the transformation process from idea
 through process design training pilot introduction all the way to business as usual The process works for GP clinics specialist
 practices and allied health practices such as psychologists physiotherapists audiologists dietitians speech pathologists
 exercise physiologists The book provides advice on how to make sure that an existing in person service is not disrupted while
 a new flexible digital service offering is made available as an additional service Beyond the Clinic is the answer for
 healthcare practice business owners who want to transform their business with innovative care models and lead it into the
 digital age Praise for the book Dr Silvia Pfeiffer has an extensive background in computer science and healthcare consulting
 in a wide range of health environments and as such is excellently qualified to write this book Beyond the Clinic transforming
 your practice with video consultations Prof Peter Yellowlees Past President American Telemedicine Association Silvia is
 passionate about enabling medical video consultations in Australia her experience in this industry is quite unique Anita
 Mustac Founder of online mental health service Dokotela Silvia has an amazing vision for what is possible in the
 technological side of telehealth and pairs this with a genuine interest in the needs of health professionals In the fast moving
 world of digital health early movers like Silvia have a wealth of valuable insights to share Karen Finnin Director of Online
 Physio Where healthcare meets technology it is always hard to find someone who really understands the unique challenges

that are present Silvia gets it Greg Borman Director of online occupational therapy service Biosymm
