Stratégies De Développement Pour Le Secteur Postal Perspectives Économiques:

Stratégies de développement pour le secteur postal: perspective économique Union Postale Universelle, Le présent ouvrage analyse l'économie du secteur postal sous trois angles différents : aperçu et tendances d'abord puis modèles et finalement opportunités. Dans les années venant l'Union postale universelle compte largement son rôle en tant que centre de connaissances pour le secteur postal sur la base de ces perspectives. En ces temps de transformation radicale du secteur il est important de comprendre les tendances auxquelles il est confronté au fil des ans la façon dont il est relié au système économique et la direction stratégique qu'il prend d'un pays à un autre d'une région du monde à une autre. Le présent ouvrage présente donc en premier une perspective de long terme en mettant l'accent sur le modèle économique des opérateurs postaux historiques au cours des trois dernières décennies puis il décrit le développement de ces opérateurs au cours des cinq dernières années. Il donne aussi une image en temps réel sur la base de données postales de masse recueillies quotidiennement signalant cette occasion l'une des meilleures opportunités pour le secteur en termes de prévisions et de conception de produits et services futurs.
