unprecedented North American study of contemporary female and male strip shows It particularly focuses on the contradictory sex roles cultural positions and performance practices of straight strip shows during their second heyday in the early 1990s Katherine Liepe Levinson s research took her to over seventy different strip bars clubs theatres and sex emporiums ranging from elaborate lap dancing and couch dancing gentlemen s clubs in New York Houston and San Francisco to Peoria s onetime duplex cabaret where women strip for men downstairs and men for women upstairs to the nightclubs of Montreal where female and male performers displayed the Full Monty Liepe Levinson s intriguing comprehensive study concentrates on the cultural and theatrical elements of the strip shows themselves including the geographic locations and interior designs of the clubs the choreography and costumes of the dancers and the all important participation of the audience She draws upon a variety of methodologies as well as interviews with performers to explore how the strip show s cultural and theatrical aspects simultaneously uphold and break traditional sex roles Her findings readily complicate several of the most prominent and prevalent theories about sexual representation gender and desire
