Analysis

1. During 1906 and 1907, what two methods did the Forest Service use to protect the Kaibab deer?

Theodore Roosevelt created a national game reserve and they exterminated the predators of the Kaibab deer.

1. Why did you expect the population of the deer to grow in 1906 and 1907?

Because the reserve was created and the predators were exterminated.

1. Why did you expect the population of deer to decline in 1925, although the extermination of predators occurred?

The deer population was over 100,000 and the reserve was overstocked with deer.

1. Why did you think the deer population was in 1925 was 100,000 when the extermination of predators had occurred in 1906 and 1907?

There was overstocking because the deer were left alone for the majority of the population.

1. Why did the deer population decline after 1925?

The overstocking was removed. The population was overstocked and the deer were overstocked.
