Blood and Ruins Richard Overy, 2023-04-04 Monumental A vast and detailed study that is surely the finest single volume history of World War II Richard Overy has given us a powerful reminder of the horror of war and the threat posed by dictators with dreams of empire The Wall Street Journal A thought provoking and original reassessment of World War II from Britain's leading military historian A New York Times bestseller Richard Overy sets out in Blood and Ruins to recast the way in which we view the

Second World War and its origins and aftermath As one of Britain's most decorated and respected World War II historians he argues that this was the last imperial war with almost a century long lead up of global imperial expansion which reached its peak in the territorial ambitions of Italy Germany and Japan in the 1930s and early 1940s before descending into the largest and costliest war in human history and the end after 1945 of all territorial empires Overy also argues for a more global perspective on the war one that looks broader than the typical focus on military conflict between the Allied and Axis states Above all Overy explains the bitter cost for those involved in fighting and the exceptional level of crime and atrocity that marked the war and its protracted aftermath which extended far beyond 1945 Blood and Ruins is a masterpiece a new and definitive look at the ultimate struggle over the future of the global order which will compel us to view the war in novel and unfamiliar ways Thought provoking original and challenging Blood and Ruins sets out to understand the war anew

Citizenship between Empire and Nation Frederick Cooper, 2016-05-31 A groundbreaking history of the last days of the French empire in Africa As the French public debates its present diversity and its colonial past few remember that between 1946 and 1960 the inhabitants of French colonies possessed the rights of French citizens Moreover they did not have to conform to the French civil code that regulated marriage and inheritance One could in principle be a citizen and different too *Citizenship between Empire and Nation* examines momentous changes in notions of citizenship sovereignty nation state and empire in a time of acute uncertainty about the future of a world that had earlier been divided into colonial empires Frederick Cooper explains how African political leaders at the end of World War II strove to abolish the entrenched distinction between colonial subject and citizen They then used their new status to claim social economic and political equality with other French citizens in the face of resistance from defenders of a colonial order Africans balanced their quest for equality with a desire to express an African political personality They hoped to combine a degree of autonomy with participation in a larger Franco African ensemble French leaders trying to hold on to a large French polity debated how much autonomy and how much equality they could concede Both sides looked to versions of federalism as alternatives to empire and the nation state The French government had to confront the high costs of an empire of citizens while Africans could not agree with French leaders or among

themselves on how to balance their contradictory imperatives Cooper shows how both France and its former colonies backed into more national conceptions of the state than either had sought **Exceptionalism** Lars Jensen, Kristín Loftsdóttir, 2021-09-27 This volume crucially provides an analytical and comparative approach investigating the meaning and uses of the concept of exceptionalism while demonstrating the ways in which it manifests itself in different historical and geographical settings Exceptionalism offers comparative case studies from different parts of the world showcasing the way in which exceptionalism has come to occupy an important narrative position in relation to different nation states including the United States the United Kingdom the Nordic countries various European nations and countries in Latin America Africa and Asia An introduction to and overview of a term that has come to define the past and present identity of many nations this book will appeal to scholars of sociology anthropology geography cultural studies and politics *Beyond Borders* Heather Goodall, 2025-10-01 *Beyond Borders* Indians Australians and the Indonesian Revolution 1939 to 1950 rediscovers an intense internationalism and charts its loss in the Indonesian Revolution Momentous far beyond Indonesia itself and not just for elites generals or diplomats the Indonesian anti colonial struggle from 1945 to 1949 also became a powerful symbol of hope at the most grassroots levels in India and Australia As the news flashed across crumbling colonial borders by cable radio and photograph ordinary men and women became caught up in the struggle Whether seamen soldiers journalists activists and merchants Indonesian independence inspired all of them to challenge colonialism and racism And the outcomes were made into myths in each country through films memoirs and civic commemorations But as heroes were remembered or invented this 1940s internationalism was buried behind the hardening borders of new nations and hostile Cold War blocs only to reemerge as the basis for the globalisation of later years *Dutch Neorealism, Cinema, and the Politics of Painting, 1927-1945* Stephanie Lebas Huber, 2024-08-12 This study offers a radically new perspective on Dutch Neorealism one that emphasizes the role of film as an apparatus the effects of which when emulated in painting can reproduce the affective experience of film watching More of a tendency than a tightly defined style or ism Neorealism is the Dutch variant of Magic Realism an uncanny mode of figurative painting identified with Neue Sachlichkeit in Germany and Novecento in Italy Best represented by the Dutch artists Pyke Koch Carel Willink Charley Toorop Raoul Hynckes Dick Ket and Wim Schuhmacher Neorealism as demonstrated in this book depicted societal disintegration and allegories of looming disaster in reaction to the rise of totalitarian regimes and eventually the Nazi Occupation of The Netherlands The degree to which these artists exhibited either revolutionary or reactionary sentiments usually corresponding with their political affiliation is one of the central problematics explored in this text The book will be of interest to scholars working in art history World War II history and film studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license *Western and Northern Europe June 1942-1945* Katja Happe, Barbara Lambauer, Clemens Maier-Wolthausen, 2022-08-01 Executive editors Katja Happe
