[Endurance](#) Scott Kelly,2017-10-17 NATIONAL BEST SELLER A stunning personal memoir from the astronaut and modern day hero who spent a record breaking year aboard the International Space Station a message of hope for the future that will inspire for generations to come The veteran of four spaceflights and the American record holder for consecutive days spent in space Scott Kelly has experienced things very few have Now he takes us inside a sphere utterly hostile to human life He describes navigating the extreme challenge of long term spaceflight both life threatening and mundane the devastating effects on the body the isolation from everyone he loves and the comforts of Earth the catastrophic risks of

colliding with space junk and the still more haunting threat of being unable to help should tragedy strike at home an agonizing situation Kelly faced when on a previous mission his twin brother's wife American Congresswoman Gabrielle Giffords was shot while he still had two months in space Kelly's humanity compassion humor and determination resonate throughout as he recalls his rough and tumble New Jersey childhood and the youthful inspiration that sparked his astounding career and as he makes clear his belief that Mars will be the next ultimately challenging step in spaceflight In *Endurance* we see the triumph of the human imagination the strength of the human will and the infinite wonder of the galaxy
