Written late in life this remarkable book was described by Percy Scholes as offering the most practically valuable study of the art of teaching music in existence The first book of its kind to appear in the language it began by summarising principles common to the teaching of all subject next applying those principles to the teaching of music Even today the thoughtful reader will find himself impressed by Curwen s exposition of general educational principles expressed in jargon free terms and supported by excerpts from the writings of the leading educational thinkers of his day The text has been enlarged by four per cent for ease of reading **The Musical Standard** ,1881 Outlook Alfred Emanuel Smith,Francis Walton,1881 **The Musical Times** ,1907 **Scripture and Song in Nineteenth-Century Britain** James Grande,Brian H. Murray,2023-11-16

This volume brings together new approaches to music history to reveal the interdependence of music and religion in nineteenth century culture As composers and performers drew inspiration from the Bible and new historical sciences called into question the historicity of Scripture controversies raged over the performance publication and censorship of old and new musical forms From oratorio to opera from parlour song to pantomime and from hymn to broadside nineteenth century Britons continually encountered elements of the biblical past in song Both elite and popular music came to play a significant role in the formation regulation and contestation of religious and cultural identity and were used to address questions of class nation and race leading to the beginnings of ethnomusicology This richly interdisciplinary volume brings together musicologists historians literary and art historians and theologians to reveal points of intersection between music religion and cultural history Report New Jersey.
