This book provides a comprehensive outline of the major parent training programs for parents of children with intellectual or developmental disabilities (IDD), including Autism Spectrum Disorder. Authored by eminent specialists in the field and written for researchers and clinicians supporting or treating families, each chapter focuses on one of the key evidence-based parent training programs from Incredible Years and Positive Family Intervention through to Pivotal Response Treatment and Acceptance and Commitment Therapy. Each chapter provides a breakdown that features an introduction to the model, evidence for the model, a full description of the model, a discussion of implementation and dissemination efforts and concluding comments.
