## Toison Dor La:

**La noblesse à table** Paul Janssens, Siger Zeischka, 2008 Presenting a rare glimpse into the dining rooms of Belgian nobility from the Middle Ages to modern times specialists in the field discuss gastronomy and festive culture in a historical and sociological context This stunning work provides insights into both the culinary proclivities and table manners of these epic gourmards answering such questions as What was the daily menu of the dukes of Burgundy What was behind the sudden enthusiasm for saltwater fish in the 17th century and Why were exotic desserts so popular in the 19th century A valuable addition to the historical study of Belgian Noblemen and the ruling elite this bilingual collection presented in both English and French creates a wonderfully rich portrait of the past from the dukes of Burgundy to Belgian royalty *Medea, Magic, and Modernity in France* Amy Wygant, 2016-04-29 Bringing together the previously disparate fields of historical witchcraft reception history poetics and psychoanalysis this innovative study shows how the glamour of the historical witch a spell that she cast was set on a course over a span of three hundred years from the sixteenth to the eighteenth centuries to become a generally broadcast glamour of appearance Something that a woman does that is became something that she has The antique heroine Medea witch and barbarian infamous poisoner infanticide regicide scourge of philanderers and indefatigable traveller serves as the vehicle of this development Revived on the stage of modernity by La P ruse in the sixteenth century Corneille in the seventeenth and the operatic composer Cherubini in the eighteenth her stagecraft and her witchcraft combine author Amy Wygant argues to stun her audience into identifying with her magic and making it their own In contrast to previous studies which have relied upon contemporary printed sources in order to gauge audience participation in and reaction to early modern theater Wygant argues that psychoanalytic thought about the behavior of groups can be brought to bear on the question of what happened when the early modern witch was staged This cross disciplinary study reveals the surprising early modern trajectory of our contemporary obsession with magic Medea figures the movement of culture in history and in the mirror of the witch on the stage a mirror both appealing and appalling our own cultural performances are reflected It concludes with an analysis of Diderot's claim that the historical process itself is magical and with the moment in Revolutionary France when the slight and fragile body of the golden throated singer Julie Ang lique Scio became a Medea for modernity not a witch or a child murderess but as all the press reviews insist a woman

Howarth, 1997-06-05 This 1997 book covers the period which saw the establishment in France of a centralized official theatre not only the Com die Fran aise the first national theatre but an Italian theatre and a state opera the often subversive independent theatres are also discussed Nearly 1 000 documents deal with censorship and other aspects

of external control company management the acting profession dramatic theory and criticism theatre architecture settings and costumes audience composition and behaviour Over 120 pictorial documents architectural drawings technical engravings frontispieces portraits etc provide a visual dimension where relevant A full linking narrative and a copious bibliography help to make this an important reference work and a valuable research tool Catalogue Bernard Quaritch (Firm),1926 **The Documented Image** Gabriel P. Weisberg,Laurinda A. Dixon,1987-12-01 *Philip the Good* Richard Vaughan,2002 Philip who ruled from 1419 to 1467 was one of the most powerful and influential rulers of the fifteenth century Forced into an alliance with the English he soon found that he held the balance of power between England and France reflected in the final crucial phase of the Hundred Years War Under Philip the Good grandson of the founder of the duchy s power Burgundy reached its apogee Professor Vaughan portrays not only Philip the Good himself perhaps the most attractive personality among the four great dukes butthe workings of the court and of one of the most efficient if not necessarily the most popular administrations in fifteenth century Europe The complex diplomatic history of Philip the Good s long ducal reign 1419 1467 occupies much of the book in particular Burgundy s relations with England and France The central theme is Philip the Good s policy of territorial and personal aggrandisement which culminated in his negotiations with the Holy Roman Emperor for a crown And due attention is given to the great flowering of artistic life in Burgundy which made Philip s court at Dijon an important cultural centre in the period immediately preceding the Renaissance All this is based on the close study of the considerable surviving archives of Philip s civil service and on the chronicles and letters of the period Philip the Good provides a definitive study of the life and times of the rulerwhose position and achievements made him the greatest magnate in Europe during what has been called the Burgundian century **Jan van Eyck and Portugal's 'Illustrious Generation'** Barbara von Barghahn,2013-12-31 This book investigates Jan Van Eyck s patronage by the Crown of Portugal and his role as diplomat painter for the Duchy of Burgundy following his first voyage to Lisbon in 1428 1429 when he painted two portraits of Infanta Isabella who became the third wife of Philip the Good in 1430 New portrait identifications are provided for the Ghent Altarpiece 1432 and its iconographical prototype the lost Fountain of Life These altarpieces are analysed with regard to King Joao I s conquest of Ceuta achieved by his sons who were hailed as an illustrious generation Strong family ties between the dynastic houses of Avis and Lancaster explain Lusitania s sustained fascination with Arthurian lore and the Grail quest Several chapters of this book are overlaid with a chivalric veneer A second secret mission to Portugal in 1437 by Jan van Eyck is postulated and this diplomatic visit is related to Prince Henry the Navigator s expedition to Tangier and King Duarte s attempts to forge an alliance with Alfonso V of Aragon Late Eyckian commissions are reviewed in the light of this ill fated crusade and additional new portraits are identified The most significant artist of Renaissance Flanders appears to have been patronized as much by the House of Avis as by the Duchy of Burgundy Barbara von Barghahn is Professor of Art History at George Washington University and a specialist in the art history of Portugal Spain and their

colonial dominions as well as Flanders In 1993 she was conferred O Grao Comendador in the Portuguese Order of Prince Henry the Navigator She has spent nearly a decade completing research about Jan van Eyck s diplomatic visits to the Iberian Peninsula

**Between France and England** Michael Jones,2024-10-28 Between France and England characterises the role played by most rulers of the duchy of Brittany during the late Middle Ages before it was finally united with Valois France These essays including three appearing for the first time in English explore political and institutional aspects of the changing relationship between France and Brittany within the context of Anglo French relations as well as social consequences of the development of a largely autonomous state within the larger French kingdom during a period dominated by war and economic crisis The transformation of medieval France into an early modern state changed the traditional relationship between the king and his great feudal princes But some princes reacted by imitating the crown creating their own more advanced administrations and an ideological base for claims to exercise regal rights within their lordships often expressed in striking visual and symbolic form These trends are evident in the late medieval duchy of Brittany where the Montfort dynasty all but succeeded in nullifying royal control Ceremonial Entries in Early Modern Europe J.R. Mulryne,Maria Ines Aliverti,Anna Maria Testaverde,2016-03-03 The fourteen essays that comprise this volume concentrate on festival iconography the visual and written languages including ephemeral and permanent structures costume dramatic performance inscriptions and published festival books that voiced the social political and cultural messages incorporated in processional entries in the countries of early modern Europe The volume also includes a transcript of the newly discovered
