Artificial Intelligence in ancient Greek and Roman epic including their reception in later literature and culture Contributors look at how Hesiod Homer Apollonius of Rhodes Moschus Ovid and Valerius Flaccus crafted the first literary concepts concerned with automata and the quest for artificial life as well as technological intervention improving human life Parts one and two consider respectively archaic Greek and Hellenistic and Roman epics Contributors explore the representations of Pandora in Hesiod and Homeric automata such as Hephaestus wheeled tripods the Phaeacian king Alcinous golden and silver guard dogs and even the Trojan Horse Later examples cover Artificial Intelligence and automation including Talos in the Argonautica of Apollonius and Valerius Flaccus and Pygmalion s ivory woman in Ovid s Metamorphoses Part three underlines how these concepts benefit from analysis of the ekphrasis device within which they often feature These chapters investigate the cyborg potential of the epic hero and the literary implications of ancient technology Moving into contemporary examples the final chapters consider the reception of ancient literary Artificial Intelligence in contemporary film and literature such as the Czech science fiction epic Starvoyage or Small Cosmic Odyssey by Jan Kr esadlo 1995 and the British science fiction novel The Holy Machine by Chris Beckett 2004 Orozco's American Epic Mary K. Coffey,2020-02-28 Between 1932 and 1934 Jos Clemente Orozco painted the twenty four panel mural cycle entitled The Epic of American Civilization in Dartmouth College s Baker Berry Library An artifact of Orozco s migration from Mexico to the United States the Epic represents a turning point in his career standing as the only fresco in which he explores both US American and Mexican narratives of national history progress and identity While his title invokes the heroic epic form the mural indicts history as complicit in colonial violence It questions the claims of Manifest Destiny in the United States and the Mexican desire to mend the wounds of conquest in pursuit of a postcolonial national project In Orozco s American Epic Mary K Coffey places Orozco in the context of his contemporaries such as Diego Rivera and David Alfaro Siqueiros and demonstrates the Epic s power as a melancholic critique of official indigenism industrial progress and Marxist messianism In the process Coffey finds within Orozco s work a call for justice that resonates with contemporary debates about race immigration borders and nationality

Epic of the Earth Edith Hall, 2025-03-18 An urgent study of Homer s Iliad exposing the beginnings of the ecological disaster we now face and facilitating our understanding of its history The roots of today s environmental catastrophe run deep into humanity s past

Through this unprecedented reading of Homer's Iliad the award winning classicist Edith Hall examines how this foundational text both documents the environmental practices of the ancient Greeks and betrays an awareness of the dangers posed by the destruction of the natural landscape Underlying Homer's account of brutal military operations alliances and cataclysmic struggle is a palpable understanding that the direction in which humanity was headed could create a world that was uninhabitable Hall provides unparalleled insight into the ancient origins of climate change and argues that the Iliad exposes the deepest contradictions behind the environmental problems we have created Indeed it is possible that some of the violence done to the environment throughout history has been authorized if not exacerbated by the celebration of the exploitation of nature in Homer's poem Drawing compelling analogies to contemporary poetry literature and film Hall demonstrates that the Iliad as a priceless document of the mindset of early humans can help us understand the long history of ecological degradation and inspire activism to rescue our planet from disaster **Kingdom of Gods (epic**
