Starting with Comprehension Andie Cunningham,Ruth Shagoury,2005 It is never too early to start comprehension instruction In fact reading begins with meaning making Andie Cunningham and Ruth Shagoury designed a reading program

for five and six year olds based on this premise Most of the students in Andie s Portland Oregon kindergarten class have little or no alphabet knowledge when they enter the classroom in the fall English is a second or third language for many of the children in this low income neighborhood Through research based principles carefully structured routines and innovative activities even the youngest learners can develop comprehension skills from their first days in school The children in *Starting with Comprehension* are grappling with school culture for the first time and learning to work with classmates who speak a variety of different languages These emergent readers learn to present their understanding of what they read through writing talk movement and art Kindergartners and preschoolers are different from readers who know how to decode texts Andie and Ruth show how comprehension skills can be nurtured and strengthened even before decoding begins In this classroom meaning making becomes part of community building as children link reading thinking and communicating

Writing Sense Juli Kendall, Outey Khuon, 2023-10-10 Writing is all about making meaning The prospect of teaching writing to a classroom full of students some who speak English and some who don t can be overwhelming When students learning English are at different levels the task is even more challenging *Writing Sense Integrated Reading and Writing Lessons for English Language Learners* outlines the classroom conditions necessary for successful writing instruction with English language learners whether in writing workshop and or small group instruction It includes 68 classroom tested lessons for grades K 8 that show kids at all levels of language acquisition how to make connections ask questions visualize make mental images infer determine importance synthesize monitor meaning and comprehension and use fix up strategies The five main sections are geared to the stages of language proficiency and lessons are divided into younger and older students spanning kindergarten through to grade eight There are extensive lists of suggested books for mentor texts as well as lists of mentor authors to facilitate teachers planning and instruction
